University Libraries Announces Love Data Week Schedule for 2023

Thursday, February 9, 2023

By Alan Delozier

The University
Libraries [Research](#)
[Data Management](#)
team presents
Seton Hall's 6th
Annual Love Data
Week, from

Monday, February 13th to Friday, February 17th, 2023. This popular week of events was launched to highlight the new direction in academic libraries to find, manage, analyze, and visualize data. These services are critical for enhancing the quality of student coursework, faculty and student research, access to collections as well as graduate retention. **[Registration for all events here.](#)**

This year's workshops range from Github for Researchers to Python for Quantitative Research as well as topics in finance and leisure reading. The Data Discovery session on February 15 will show [data subscriptions](#) available to the SHU community to enhance research, grant proposals, and even one's personal life. [PolicyMap](#), for example, is an easy to use mapping tool that allows a user to explore U.S. neighborhoods where the SHU community lives, works or volunteers. PolicyMap is used across

SHU in disciplines ranging from Public Health to Education and Business Writing with Professor [Greg Iannarella](#).

Schedule:

- **High-Performing Investments for the Socially Conscious**,
Dr. Anthony Loviscek, Monday, February 13, 2023, 10 - 11 a.m.
- **Python for Quantitative Research**,
Malik M. Redwood '24, Monday, February 13, 2023, 1 - 2 p.m.
- **GitHub for Researchers: Mastering Collaboration and Version Control**
Ms. Salah Muddathth, Tuesday, February 14, 2023, 11 a.m. - 12 p.m.
- **Index Developing in Python Creating "Financial Attractiveness Index"**
Dr. Olga Komissarova, Tuesday, February 14, 2023, 1 - 2 p.m.
- **Data Discovery: Navigating ICPSR, PolicyMaps, Statista, and Living Atlas of the World**
Dr. Samah Alshrief, Wednesday, February 15, 2023, 2 - 3 p.m.
- **Logistical Regression Modeling in Stata**
Dr. Samah Alshrief, Thursday, February 16, 2023, 11 a.m. - 12 p.m.
- **What's on Your TBR? Predicting Five-Star Reads with Book Data**
Professor Maria Barca, Friday, February 17, 2023, 11 - 11:30 a.m.

Registration is here and workshops will run virtually Eastern Standard Time. All sessions will be recorded and shared. Please email data.services@shu.edu with questions.

University Libraries Assistant Dean for Public Services, [Lisa DeLuca](#) remarks, "University Libraries has steadily increased the size of our Research Data Management team over the past three years to include six librarians across two campuses in South Orange and Nutley plus lead data analyst Samah Alshrief, Ph.D., '22. The team is led by Sharon Ince, Interim Assistant Dean of Information Technology and Collection Services and Assistant Dean DeLuca.

The planning committee for Love Data Week includes librarians including [Professor Michael Murphy](#) who supports the value of this initiative: "I'm very excited by the mix of new and returning speakers and the breadth of topics being covered this year." Professor Murphy is the liaison to the School of [Diplomacy and International Relations](#) and the [Department of Political Science & Public Affairs](#). Professor Murphy also coordinates [DiploLab](#), a collaborative research space run by Dr. Joseph Huddleston. DiploLab allows students to explore their interests related to international relations, engage with faculty, and apply what they are learning beyond the classroom.

In addition, [2022 programs](#) include great presentations about [Seton Hall's Collections Around the World](#) and conversations about Data Ethics.
