Assistant Professor · Department of Political Science
Note from the President, Rachel D. Beeman

This year’s editorial board received 24 submissions for review. Each editor read over 100 pages. This year we expanded the selection process beyond just Political Science Majors, and received submissions from students ranging from History and Economics to International Relations majors. The editorial board for this volume of Political Analysis meticulously reviewed and selected the nominated papers for submission to the Journal. Various professors from across the university nominated papers. The selection process consisted of discussion and analysis by the editors, and papers were chosen based on their contributions to the field of Political Science, and exceptional research and writing skills. I would like to thank all of the editors for their time and dedication to the process, as well as all those who submitted their papers.

Department of Political Science and Public Affairs
Seton Hall University
400 South Orange Ave., Jubilee Hall, South Orange, NJ 07079
Tel: 973-761-9383

The Department of Political Science and Public Affairs offers a wide range of academic programs. Political Science majors pursue a liberal arts curriculum that focuses on United States politics, comparative politics, international relations, political philosophy, and methodology. Undergraduate Political Science students at Seton Hall have the opportunity to complete internships with numerous public and private institutions for academic credits. In partnership with the Washington Center, the Department offers students an opportunity to complete internships and coursework in Washington, D.C. The Political Science program prepares students for graduate education and for careers in politics, law government services, journalism, the nonprofit sector, public affairs, the private sector, and numerous other fields.

At the graduate level, the Department offers a Master’s in Public Administration (MPA). The MPA program offers an accelerated program in conjunction with political science, religious studies, sociology and the Honors College, where students begin graduate study in their senior year of undergraduate studies, and complete 24-credits of graduate level course in their fifth year. The MPA program is accredited by the National Association of Schools of Public Affairs and Administration (NASPAA). Students in the MPA program choose one of the four concentrations: Nonprofit Organization Management, Public Service, Data Visualization and Management. The MPA Program in Nonprofit Organization Management was ranked #14 in the country by U.S. News and World Report, in 2016.
