“Life's challenges are not supposed to paralyze you; they're supposed to help you discover who you are.”

- Bernice Johnson Reagon

FAST FACTS REGARDING POVERTY

One-third of senior households have no money left over each month or are in debt after meeting essential expenses.

The poverty rate among people ages 65 and older increases with age and is higher for women, African-Americans and Hispanics, and people in relatively poor health.

Those 65 years and older are hospitalized three times as often as those 45 to 64 years old.
