SETON HALL COLLEGE

ADMINISTRATION

ETON HALL COLLEGE, established under the jurisdiction of the Bishop of Newark, is conducted by the clergy of the diocese, assisted by lay professors. The Executive Faculty embraces, according to the adopted by-laws, the President, the Vice-President of the College, all the clerical members of the teaching staff, and two of the lay professors selected annually by the President. The Executive Faculty acts as an advisory committee to the Board of Trustees.

The Rt. Rev. Thomas J. Walsh, D.D., the present Bishop of Newark, resides near by and exercises a general supervision over collegiate activities.

Seton Hall consists of the College of Arts and Sciences, and the School of Education at South Orange. The Graduate department is identified with the Theological Seminary of the Diocese of Newark, situated at Darlington, N. J. In connection with ecclesiastical disciplines the students at the Seminary pursue philosophical and literary studies equivalent to those taught at South Orange. The Reverend Professors belong to the general faculty of Seton Hall College. It should be observed, however, that all matters administrative, financial, and scholastic pertaining to the Seminary, should be addressed to the Rector of the Immaculate Conception Seminary, Darlington, Ramsey Post Office, N. J. and not to South Orange.

SITUATION AND MEANS OF ACCESS

The College is situated in the village of South Orange, N. J., on the line of the Delaware, Lackawanna and Western Railroad, fourteen miles west of New York City. No more healthful and inviting site could be chosen for the College buildings, situated as they are in full view of the Orange Mountains, on high ground, and surrounded by fine shade trees and well-kept lawns that afford charming fields for recreation and sport. The College property embraces about fifty acres. The buildings are grouped together in a natural surrounding that makes Seton Hall one of the most attractive sites in the State.

To visit the College from New York the Delaware, Lackawanna and Western Railroad may be taken from Christopher Barciay

To visit the College from New York the Delaware, Lackawanna and Western Railroad may be taken from Christopher, Barciay or Twenty-third Streets, New York, or from the terminal station in Hoboken. The Pennsylvania Railroad may be taken from

Pennsylvania or Hudson Terminals, New York, to the Market Street Station in Newark, and thence the South Orange Avenue electric line or omnibus to the College entrance. The Hudson and Manhattan Tubes may be taken from their several stations in New York to Newark. Visitors from Philadephia or Trenton may come by way of Newark, and take the trolley to South Orange, or by way of New York by the routes already indicated. Only those cars pass the College grounds which in addition to their common sign, "South Orange Avenue," are marked either "South Orange" or "Maplewood." The running time from Newark to the College is forty minutes.

HISTORICAL SKETCH

Seton Hall College was founded in 1856 by the Rt. Rev. James Roosevelt Bayley, who three years before had been consecrated Bishop of the newly erected See of Newark. In the establishment of the institution Bishop Bayley was ably seconded by the Rt. Rev. Bernard J. McQuaid, first president of the College, and late Bishop of Rochester. It was named Seton Hall by Bishop Bayley in honor of his illustrious aunt, Mother Elizabeth Seton, foundress of the Sisters of Charity in the United States. The College was first situated in Madison, N. J., but in September, 1861, it was transferred to ampler buildings in South Orange, N. J.

In the same year, by an act of the Legislature of the State of New Jersey, the institution was incorporated under the name of Seton Hall College, empowered to grant academic degrees, and endowed with all the rights belonging to similar corporations by the law of the State. By the charter thus granted the corporate powers of the institution were vested in a Board of thirteen trustees, with the Roman Catholic Bishop of Newark perpetual trustee ex-officio, and President of the Board. The first Board of Trustees, to whom the charter was granted, was composed of the following members.

following members:

Rt. Rev. James Roosevelt Bayley, D.D.

Rev. Patrick Moran

Rev. Bernard J. McQuaid

William Dunn

Daniel Coglan

Rev. John Mackin

Dominic Eggert

Rev. Michael Madden

Michael J. Ledwith

Henry J. Anderson

John B. Richmond, M.D.

Edward Thebaud, Jr.

Orestes A. Brownson

During the trying times of the Civil War, when so many institutions of learning were obliged to close their doors, Seton Hall not only held its own, but under the able management of Father McQuaid, attracted so many new students that, in 1865, the College

building had to be enlarged to twice its original size.

In 1867 Father McQuaid was appointed Bishop of the newly erected See of Rochester, N. Y. The Vice-President, the Rev. Michael A. Corrigan, D.D., was chosen to succeed Father McQuaid as President. During the eight years of his administration Dr. Corrigan improved and developed the material side of the institution, completed its equipment, beautified the grounds, advanced the standard of studies, and dedicated the new chapel.

In 1873 Dr. Corrigan was consecrated Bishop of the Diocese of Newark. He retained the office of President of the College until 1876, when his brother, the Rev. James H. Corrigan, A.M., became his successor. Under the new administration the Alumni Association was organized and at the suggestion of the President undertook the erection of Alumni Hall. The cornerstone was laid on

October 15, 1883.

On account of failing health Father Corrigan resigned the presidency in 1888, and the Rev. William F. Marshall, then Vice-President and Treasurer, was elected President by the Board of Trustees. Father Marshall's term of office was marked by great financial suc-

cess and by increased attendance in all departments.

In 1895 Father Marshall went abroad on account of ill health, and two years later, in June, 1897, his resignation was accepted with regret by the Board of Trustees, and the Rev. Joseph J. Synnott, D.D., was chosen by the Board to succeed him. Upon his untimely death, in 1899, he was succeeded by the Rt. Rev. Msgr. John A. Stafford, S.T.L. During the presidency of Msgr. Stafford a new infirmary was built and the chapel was renovated and beautified. After the Golden Jubilee celebration, in 1906, Msgr. Stafford asked to be relieved of the presidency, and in January, 1907, his request was granted.

The Rt. Rev. Msgr. James F. Mooney, D.D., LLD., was ap pointed to succeed him. Monsignor Mooney, within two years of his entrance into office, not only liquidated a considerable debt, but also succeeded in replacing the building destroyed by fire in March, 1909. In addition, he erected two impressive structures for College and Preparatory purposes, and a modern farm building, admirably suited to College needs. During the period of his incumbency the College enjoyed an enviable reputation because of the high character of its students in the field of scholarship, at

home and abroad.

On August 2, 1922, Monsignor Mooney, after a remarkably successful administration of more than fifteen years, moved by continued ill health, placed his resignation as President of Seton Hall in the hands of the Right Reverend Bishop, who thereupon appointed the Rt. Rev. Thomas H. McLaughlin, S.T.D., to take up

the work of administration.

The following list gives the names of the Presidents of Seton Hall, with the dates of their terms of office:

Rev. Bernard J. McQuaid President (first term) 1856-1857

Rev. Daniel J. Fisher, A.M. President 1857-1859

Rev. Bernard J. McQuaid President (second term) 1859-1868

Rev. Michael A. Corrigan, D.D. President 1868-1876

Rev. James H. Corrigan, A.M. President 1876-1888

Rev. WILLIAM F. MARSHALL, A.M. President 1888-1897

Rev. Joseph J. Synnott, D.D. President 1897-1899

Rt. Rev. Msgr. John A. Stafford, S.T.L. President 1899-1907

Rt. Rev. Msgr. James F. Mooney, D.D., LL.D. President 1907-1922

Rt. Rev. Msgr. Thomas H. McLaughlin, S.T.D.
Appointed President 1922

Owing to the expansion of the collegiate and academic sections of Seton Hall College, and in order to provide more suitable quarters for the Seminary of the Immaculate Conception, the latter was removed from South Orange, to Darlington, N. J. The new site was dedicated by the Right Reverend Bishop on the occasion of the celebration of his silver jubilee in the Episcopate, October 12, 1926. Classes were inaugurated April 21, 1927.

BUILDINGS

The Administration Building is a handsome Gothic structure of dressed brown stone, the interior being finished in walnut and ash. It contains the administration offices, the College parlors, the rooms of the professors, and private rooms of the college students.

Bayley Hall is a two-story and attic building of fireproof construction. It contains the classrooms and dormitories for the college students. The Library is a two-story building, seventy feet in length, built of pressed brick with cut stone and terra cotta trimmings. It has a capacity at present of about forty thousand volumes, but is so constructed that it can be made to accommodate twice that number.

The College Auditorium, according in design with the other buildings of the institution, contains a large assembly hall, which affords Gymnasium facilities, including an excellent basketball court. The basement is used as a recreation room for the students of the College Division.

Alumni Hall, a gift of the graduates of the College, is built of undressed brown stone. In this building are the physical, chemical, biological and zoological laboratories and Demonstration Hall. The building is encircled by broad piazzas, which afford a covered walk for exercise in inclement weather.

The College Chapel, dedicated to the Immaculate Conception of the Blessed Virgin, is built of brown stone, and is a model of ecclesiastical architecture. In January 1923, for the enhancement of the Church's Ceremonial, a new, modern organ was installed.

The Infirmary. In order to provide for the increased enrollment, the Infirmary has been considerably enlarged and fully provided with all modern appliances for the care of the sick and the injured. The front entrance is on Wilden Place and the entire building has a frontage of 160 feet. Several new rooms have been added, together with a new diet kitchen and dressing room. Particular attention has been given to provide for ample stair and exit facilities, so that there are at least two ways of getting out of any part of the building from each room. The Sisters of Charity, who supervise the domestic arrangements, have their own apartments in the infirmary building, and the sick receive their constant care and attention. An isolation ward that meets all the requirements of the Board of Health is a feature of the Infirmary.

The Laundry. The laundry facilities have been completely remodelled and installed according to the latest principles of efficiency, including individual motor driven machinery.

AIM

The aim of Seton Hall is to impart a collegiate education in the highest sense of the word—to train the moral, intellectual and physical being of the students. The mere imparting of knowledge is looked upon as but a small part of the work of the institution. The training of the heart and the formation of character under the guiding influence of Christian principles, the development of the intellectual faculties, the encouragement and guidance of laudable ambition, the acquisition of habits of logical thought, correct meth-

ods of study, self-discipline and refinement, the realization, in a word, of the highest ideals of excellence in the cultured Christian gentleman, destined for positions of leadership—these are the ends that Seton Hall keeps steadily in view in the arduous and sacred office of educating youth.

RELIGIOUS TRAINING

The students are instructed in the doctrines of the Catholic Church and trained in its practice. The religious instruction is thorough and is continued throughout the entire course; its aim is to make the faith of the students an intelligent faith, and to provide them with the knowledge necessary to withstand the manifold attacks which their religious beliefs may encounter after their college days are ended.

The training in the practical exercise of their religion is made an object of unremitting care. Two of the priests, known as spiritual counsellors, are especially set aside for the work of spiritual guidance of the individual students. All receive Holy Communion monthly, though encouraged, according to our late Holy Father's wishes, to weekly or even daily Communion. The ceremonial of the Church is carried out with all possible solemnity and in its complete beauty in the College Chapel. Solemn Mass, during which a short instruction is delivered, is celebrated every Sunday of the school year and is attended by the students in a body. At Vespers or Compline and Benediction, on Sunday afternoons, the Psalms and hymns are sung by the students. There are special courses of instruction and devotion during the Lenten season and during the months of May and October, and on the first Fridays of the month. The spiritual needs of day as well as of boarding students are amply provided for. All students are expected to make the Annual Retreat. In addition, they are brought into active contact with Catholic life of the day through the instrumentality of the Confraternities of the League of the Sacred Heart and the Society for the Propagation of the Faith.

Non-Catholics will be received, provided their parents or guardians are willing to have them placed under the influence of a Catholic institution. No efforts at proselytizing are made, but no exceptions in the order of the house are made in favor of non-Catholic students.

DISCIPLINE

The system of government combines strict discipline with kind and gentle treatment. The rules of the College require of all students a manly bearing, kind and courteous deportment towards one another at all times, application to study during the hours of study, of discipline are read at stated intervals to the assembled students, and those who show themselves unwilling to submit to these regulations are not permitted to remain.

The system of discipline is intended to form the character according to the principles of honor and Christian morality. The students are expected to conduct themselves at all times and places as Catholic gentlemen. The College authorities reserve the right to dismiss any students for conduct which would cast reflection

upon the institution or upon its members.

Since regular attendance and observance of the rules of the School are of paramount importance in developing character and in the acquisition of knowledge, the parents and guardians of our students are earnestly exhorted to co-operate with us in securing a strict observance of the customs and rules of the house. In the case of boarding students, it is earnestly desired that leaves of absence be not sought after save in urgent cases, and then only in writing. No general weekly permissions are given, and we ask that none be solicited. Students are allowed to return to their homes during the Thanksgiving, Christmas and Easter recesses. When a legal holiday immediately precedes or follows a Sunday or Thursday, students are permitted to return to their homes, if their parents or guardians so desire. Boarding students must return to the College at the close of recesses, at 5:30 P. M., on the evening preceding the resumption of classes.

DAY SCHOLARS

Although Seton Hall was originally established for boarding students exclusively, the advance made in transportation facilities has rendered it a very suitable institution for day-students living in Northern New Jersey. Moreover, the schedule of classes has been so arranged that these students may leave from, and return to, their homes at seasonable hours. Day scholars must attend their classes regularly and punctually if they desire to be retained on the roll, and they must submit to such regulations as may, from time to time, be made by the College authorities for their direction.

ABSENCES

It is a student's duty to attend punctually each class or laboratory exercise in each course. For credit toward a degree or for a certificate of proficiency, attendance at nine-tenths of the sessions is required in addition to the proficiency attested by class work and examination. Absences are counted from the first meeting of the class in each session. Tardiness counts as half an absence.

A student may be absent without penalty in a session as follows: From a course meeting once weekly, once; from a course meeting twice weekly, twice; from a course meeting three times weekly, three times; from a course meeting four times weekly, four times; and

from a course meeting five times weekly, five times.

Each student should keep a record of his absence from class or tardiness. In case this limit is exceeded, a student receiving a

grade of 85, or higher, may at the close of the session, submit a statement to the Registrar showing the cause of each absence.

If, in the judgment of the Administrative Board, these causes were imperative full or coation and the cause of each absence. imperative, full or partial credit for the course may be assigned by the Director upon the recommendation of the Administrative Board in accordance with the extent and reason of the student's absences and the standing attained in the course.

MEDALS AND PRIZES

The medals are decided by the rating of students as determined by their class work during the year and by their examinations at the close of each term. Medals offered for special branches will not be awarded unless an average of ninety per cent. is obtained for the year's work in that branch; students falling below seventytwo per cent. in any one branch are debarred from receiving any special medal. Medals for class standing, which are the highest honors of the respective class, are awarded to that student of the class who has the highest rank for the year in all branches taken together, provided his general average is not below ninety per cent.

FOUNDED MEDALS

All the prizes in the following list of foundations are, unless otherwise noted, gold medals:

The Hamilton-Ahern Gold Medal for Good Conduct, founded by Messrs. Robert Hamilton, of Sacramento, Cal., and S. J. Ahern, of Elizabeth, N. J.

The Bossier Gold and Silver Medals for the best recitations in the German classes, founded by A. Bossier, Esq., of Havana, Cuba. The Greek Prize, founded by the Most Rev. James Roosevelt Bayley, D.D., late Archbishop of Baltimore, Md.

The Philosophical Prize, founded by the Rt. Rev. Bernard J. McQuaid, D.D., late Bishop of Rochester, N. Y.

The Logic Prize, founded by a friend of the College.

The Prize for Natural Science, founded by P. Barry, Esq., of Rochester, N. Y.

The Prize for the Best Recitations in the Freshman Class, founded by the Most Rev. Michael A. Corrigan, D.D.

The Prize for Ethics, founded by the Rt. Rev. Msgr. Thomas S. Preston, V.G., of New York.

The Prize for History, founded by Mrs. Catherine Bruner, of New York.

The Lynam Memorial Gold Medal, for high standing in Bayley Hall, founded by Mr. and Mrs. Bernard J. Lynam, of Astoria, L. I., in memory of their son, Bernard Joseph Lynam, Jr., a former student of Rayley Holl

THE LIBRARY

The College Library contains about twenty-five thousand volumes, which all the students by to which all the students have access. In every department of in-

struction the professor is directed to draw the attention of his pupils to the best works in the Library bearing on the subject taught, and to acquire evidences of individual reading and research. All additions to the Library are carefully made with reference to the needs of the different departments, while at the same time there is kept in view the development of a library of general culture for the use of the instructors and the students.

During the year 1928-1929 the Library received a thorough survey made by an expert in library science. In conformity with suggestions made, the Library has been reorganized and newly equipped to meet

the demands of the college students for study.

Every student is charged five dollars for the use of the Library.

OUTFIT FOR RESIDENT STUDENTS

A student, on entering as a boarder, should be supplied with sufficient clothing for the term, with the customary toilet articles, and an adequate number of towels, napkins, napkin ring plainly marked with name, and laundry bag, all marked with the student's name

With regard to pocket money, it is desirable that parents should allow their sons but a moderate sum, and that this should be placed in the hands of the Treasurer, to be dispensed as prudence may suggest.

VISITORS

On Thursday, the regular weekly holiday, and on Sunday afternoon, the students may receive visits from parents, relatives, or friends. Visitors wishing to inspect the institution are always welcome, and should call for the President, Vice-President, or Deans of Discipline. Parents who contemplate sending their sons to a boarding school are cordially invited to pay a visit to Seton Hall before making their choice. The College is open for the reception of visitors on and after the fifteenth of August.

PHYSICAL CULTURE AND RECREATION

The health and physical development of the students are objects of constant solicitude. A regular course in physical instruction is obligatory on all students. All forms of manly outdoor exercise are encouraged. The grounds set apart for recreation contain baseball and football fields, handball alleys and tennis courts. The Auditorium Building is provided with a Gymansium and in the basement of this, as well as in Bayley Hall, the students have opportunities for recreation, with suitable games, such as billiards, etc. The Athletic Association arranges schedules in the principal sports with prominent Colleges in the East.

DOMESTIC ARRANGEMENTS

The household affairs are under the care of Sisters of Charity. Constant attention is paid to the cleanliness and neatness of every part of the establishment. The table is always generously furnished. nished. In sickness, the facilities of the infirmary are at the disposal of the students at cost,

Books, stationery and other incidentals will be supplied from the stationery department at the lowest possible rates.

All boarding students must make an advance deposit of \$25.00 to cover charges of this character. The unexpended balance will be refunded at the close of the year.

At entry a part of a month will invariably be charged as a whole

Should the student leave the College before the expiration of a term no deduction will be made for the remainder of that term, except in case of dismissal or prolonged illness.

Bills are presented at the beginning of each term and are payable in advance. The Trustees of the College have instructed the Treasurer to enforce rigidly this rule of payment in advance, and in no case will any exception be made.

No diploma or certificate will be issued until the financial ac-

count of a student has been satisfactorily settled.

The charges for extra branches are arranged (except in the case of music) on the supposition that a sufficient number of students register to form a class. When no class is formed private lessons may be taken at rates to be determined after conference with the instructor and the President.

Parents or guardians residing out of the United States, or at a great distance, must appoint a representative at some convenient place, who will be responsible for the regular payment of expenses, and will be prepared to receive the student should it become

necessary.

For further particulars, address,

Rt. Rev. Msgr. Thomas H. McLaughlin, S.T.D.,

President.

STUDENT EMPLOYMENT

Without question a student's full time should be devoted to his college work, and every practicable sacrifice should be made to

secure such undivided attention.

A limited number of students are given the opportunity of paying their tuition, wholly or in part, by means of services in the library, in the laboratories or in other departments of the college. The amount of service expected in payment of tuition varies with the nature of the work.

Students already enrolled at the College will receive preference

in this matter.

ACKNOWLEDGMENTS

The Trustees gratefully acknowledge the following donations:

The institution of the Honorable and Mrs. Thomas F. McCran Memorial Fund for students.

Burse in memory of the Rt. Rev. Msgr. Sigismund Swider, M.R., late pastor of St. Carmel Polish parish, Bayonne, N. J. \$7,500.

Class Medal, gift of Mr. Charles F. Henderson of South Orange, N. J.

Memorial Medal in honor of the late Honorable Thomas A. Davis, LL.D., '09, of Orange, N. J., gift of Mrs. Thomas A. Davis.

Donation of Mr. James F. Collins, Newark, N. J.

We trust that the above are only an earnest of similar acts of bounty on the part of those to whom God has given the means of assisting Catholic higher education.

BURSES

Note: Burses which have been established by the founders for the Seminary were transferred to the Seminary of the Immaculate Conception at Darlington, N. J., when it was separated from the College.

A burse defrays in whole or in part the board and tuition of a resident student. It does not provide for personal expenses or extra fees for individual courses. The sum of \$10,000 will defray tuition and board of a student in residence at Seton Hall College.

A Scholarship representing invested funds aggregating \$2,500, will defray the tuition of a student. It does not include board or individual fees.

The following burses and scholarships have been established:

The Archbishop Robert Seton Foundation: Through the bequest of the Most Reverend Robert Seton, D.D., late Archbishop of

The Honorable and Mrs. Thomas F. McCran Foundation [in the course of foundation].

All Saint's Burse, founded by the Right Reverend Monsignor Joseph H. Meehan, '81.

The St. Aloysius, Newark, Foundation, founded by the Reverend John J. Preston, '95.

The Reverend Sebastian B. Smith, J.U.D., Scholarship.

The Rt. Rev. Msgr. Sigismund Swider, M.R., Burse.

The St. Patrick's Holy Name Society of Jersey City, Burse

SETON HALL COLLEGE SCHOLARSHIPS

Seton Hall College, South Orange, New Jersey, presents four scholarships opened to graduates of Catholic High or Preparatory Schools in the State of New Jersey. The examination will take

place on Saturday, June 7, 1930.

Three are open to subjects of the Newark Diocese. One to the Diocese of Trenton. The requirements for admission to these

Scholarships are:

The presentation of evidence of graduation from a full four

year Catholic High School.

Candidates must furnish a detailed statement of work pursued in the Secondary School as well as a distinct recommendation from their Reverend Pastor, as well as the Principal of the school attended. Forms for these will be provided by the College.

From the detailed statement it must be apparent that the prospective student has secured a minimum of fifteen entrance units dis-

tributed as follows:

English 3; Latin 3; second foreign language 2; Algebra at least 1 to quadratics; Plane Geometry 1; Trigonometry ½; History 1; Civics ½. The remainder may be made up from either the languages, sciences, mathematics or history. Provisions will be made for students who have not had Greek or Trigonometry, but in any case the student must present 15 units in High School subjects, not including Commercial or Manual Training Courses.

To enter the Freshman Class in the Scientific Course 15 units likewise are required, distributed as follows; English 3; Modern Language 2; Algebra at least I to quadratics, Plane Geometry I; Trigonometry ½; Science 2; Civics ½. The remainder may be made up from either the languages, sciences, mathematics, or history. Provision will be made in the Freshman Year for students and the science of the science dents who have not had Trigonometry. In any case the student must present 15 units in High School subjects, not including Manual Training or Commercial Courses.

A study of the Seton Hall High School conspectus, pages 20 to 31, indicates the matter on which candidates may expect to be examined in Religion, English, Mathematics, (first year Algebra and Geometry), Ancient History, United States History and Civics.

A Scholarship covers tuition, (not board), and entrance fees only. It does not excuse the holder from the payment of other fees.

The privileges of Scholarships may be withdrawn at any time by reason of unworthy conduct.

A general average of more than 85 of all marks in the term must be maintained.

The privileges of a Scholarship are also forfeited by non-use and they may not be transferred by the original holder to another or resumed after having been relinquished.

Applications for the taking of this examination must be re-ceived at Seton Hall College not later than twelve o'clock noon

May 15, 1930.

REGISTRATION, COURSES OF STUDY

Students must be duly registered before entering any class. For the benefit and convenience of the students, September 11th to 16th have been set aside for the purpose of registration for the Scholastic year 1930-1931. Registration may take place by mail or, preferably, in person, at any time before these dates. It is suggested that day students register on the 15th, and boarding students on the 16th. Students registering for the first time must bring certificates of proficiency and testimonials of character from the previous institutions at which they studied, as well as a letter of introduction. No student will be admitted unless he registers for at least fifteen weekly lecture periods. The College authorities reserve the right, in every instance, to subject the student to examination.

CLASSICAL

The studies in this curriculum lead to the degree of Bachelor of Arts. Although Greek is a pre-requisite for entrance to the Arts Course, nevertheless, students who have otherwise satisfactory High School credentials will be given an opportunity to remedy this deficiency. The Arts Course is especially recommended as furnishing the highest and broadest mental culture, and as providing the best training for any special scientific, professional or literary work that may be subsequently undertaken. Moreover, in its presentation of the principles of scholastic philosophy as applied to present day problems, together with its course in Sociology, based upon principles for which Catholicism has always stood, it equips the student with a correct viewpoint and prepares him for the work of life.

SCIENTIFIC

The Scientific curriculum leads to the degree of Bachelor of Science and is intended for those who have pursued a scientific course in an accredited High School, and who are reflecting either on pursuing scientific work in later life, or, not having had the advantages of a classical training, nevertheless desire to secure study of the natural sciences, modern language and sound philosophy.

EDUCATIONAL

The courses in the School of Education have been planned to meet the needs of students seeking secondary teachers' certificates in New Jersey. These courses may be taken as forming a major or minor in conjunction with the arts or science curriculum. They include the general group requirements which insure breadth of knowledge, professional training, education and psychology, as well as the necessary equipment to teach definite subjects in the high schools.

RECOGNITION

Seton Hall in its charter from the State of New Jersey is empowered to grant the usual collegiate degrees. Moreover, it is recognized as a standard College by the Standardization Committee of the Catholic Educational Association; its A. B. and B. S. curricula have been approved by the States of New Jersey and New York.

ENTRANCE REQUIREMENTS

Note: The term unit is applied to work taken in high school; a credit to work taken in college. To count as a unit, a subject must be taught five times a week, in periods of not less than fortyfive minutes, for a school year of thirty-six weeks.

Candidates for admission to the Freshman Class must present evidence of graduation (diploma) from an accredited four year High School course. They must furnish a detailed statement of the work pursued in the Secondary School attended, as well as

references, before their applications can be considered. Forms for these will be provided by the College.

To enter the Freshman Class in the Classical curriculum 15 units are required, distributed as follows: English 3; Latin 3; second Foreign Language 2; Algebra, at least 1 to quadratics; Plane Geometry 1; Trigonometry ½; History 1; Civics ½. The remainder may be made up from either the languages, science, mathematics or history. Provision will be made for students in this course in their Freshman year, who have not had Greek or Trigonometry, but in any case the student must present 15 units in High School subjects, not including Commercial or Manual Training Courses.

To enter the Freshman Class in the Scientific curriculum 15 units likewise are required, distributed as follows: English 3; Modern Language 2; Algebra at least 1 to quadratics; Plane Geometry 1; Trigonometry ½; Science 2; History 1; Civics ½. The remainder may be made up from either the languages, science, mathematics or history. Provision will be made in the Freshman year for students who have not had Trigonometry. In any case the student must present 15 units in High School subjects, not including Commercial or Manual Training Courses.

REQUIREMENTS FOR THE A.B. AND B.S. DEGREES

In order to receive the degree of A.B. or B.S., a student is required to complete successfully an amount of work equivalent to 130 credits. A credit represents one period of 50 minutes per week for one semester, except when the class period is conducted in the style of a conference or seminar, in which case fewer credits are allowed. In laboratory work two hours are estimated as the equivalent of one lecture period.

It is to be observed that the requirements in the Philosophy Courses, which all students must attend, amply satisfies the purpose of the major study. Opportunity, however, will be offered students who, in addition to the Philosophy, wish to major in some

other branch.

A major study comprises: (1) not less than 18 semester hours of instruction either in the same subject or in a subject so closely related as to form a well unified field of study; (2) assigned reading or investigation in the designated subjects; (3) before the end of the Senior year candidates will be obliged to write a thesis on some portion of this major approved by the head of the department.

If the major is a subject which has been pursued in Freshman and Sophomore years, two semester credits will be allowed for this

earlier work.

After the prescribed courses for Junior and Senior have been provided for and the major has been selected, the remaining number of hours may be made up from other subjects at the discretion

of the Prefect of Studies.

Monthly reports of all classes are read before the students, and are sent to parents or guardians. General examinations, conducted in writing, with additional oral examinations in philosophy and the ancient and modern languages, are held semi-annually at the close of each term, the results of which are likewise transmitted to parents or guardians.

For promotion a general average of seventy-two per cent, of all recitation and examination marks is required. Should the student be deficient in any branch, he will be "conditioned" and required to pass a supplementary examination in mid-term or before the opening of the school. Failure in three or more subjects in any term involves total repetition of the term.

No student will be permitted to enter the Junior class until he shall have satisfied all conditions in the Freshman and Sophomore years. All responsibility for fulfilling the requirements for graduation shall be thrown upon the student concerned.

ADMISSION TO ADVANCED STANDING

A candidate for admission to advanced standing from another Collegiate Institution must present an official certificate showing the work successfully completed at that institution, and likewise a catalogue of the College from which he comes. He shall have completed creditably at least an entire year in a school of Collegiate grade. His course must be of a type that will enable him to continue along the same lines at Seton Hall.

No one will be admitted under any circumstances to a standing higher than the equivalent at Seton Hall College, and in no case to a standing higher than that represented by the completion of

the Junior year.

SCHEDULE OF PERIODS PER WEEK

DEPARTMENTS OF STUDY

The following Departments of Study constitute the work offered in Seton Hall College.

Note: All subjects having the letter D after the course number are given at the Immaculate Conception Seminary, Darlington, N. J.

I. DEPARTMENT OF RELIGION

The College course in Christian Evidence takes the form of a reasoned exposition and demonstration of the dogmas of the Catholic faith. The practical direction of will is also stressed. This course is required in every Class in the College. Wilmer's Handbook of the Christian Religion is used in the Senior, Junior, Sophomore, and Freshman classes.

101-102. Apologetics: The truth of the Catholic religion, Revelation, pre-Christian and Christian, the Church, Scripture, Tradition, and Rule of Faith. Freshman Class, 2 periods per week.

101D-102D. Apologetics: The meaning and purpose of the Catholic Religion, the existence of God and His influence on the Universe, the Fall of Man, pre-Christian Revelation: Christian Revelation, Scripture and Inspiration, the Kingdom of God, the Church, the Rule of Faith. 2 periods per week.

111-112. Salvation as Realized in the Individual: Grace, Sacraments, the Last Things. Sophomore Class, 2 periods per week.

121-122. Christian Dogma: One God in three Divine Persons; God the Creator and Redeemer of the World, the Author and Restorer of our salvation. Junior Class, 2 periods per week.

131-132. Christian Morality: Virtues, Commandments, Perfection. Senior Class, 2 periods per week.

II. DEPARTMENT OF CLASSICAL LANGUAGES

Latin. The study of Latin is obligatory in the Freshman, Sophomore, and Junior classes. The student is required to show in translating that he has a thorough understanding of the grammatical construction. Idiomatic English translations are required in all classes. Exercises in Latin prose composition make the student enter more appreciatively into the genius of the language. The subject-matter

is always explained by reference to history, mythology and antiquities. Style and taste, oratorical and literary technique, are studied in connection with the authors.

201-202. Livy, Sallust, and Flavius Josephus, Virgil, Cicero, Horace's Ars Poetica, 5 periods per week.

211-212. Horace's Odes, Epodes, Satires; Tacitus' Germania or Agricola; Juvenal, 4 periods per week.

221-222. Elective Courses. Post-Augustan prose — Writings from the Latin Fathers, 2 periods per week.

Greek. In order to educate the student to an appreciation of the spirit of the Greek language and the masterly style of the great Greek writers of prose, the entire course is founded on the writings of Demosthenes and Plato. Students are required to show collateral reading in Greek Mythology and customs. Sight-reading is encouraged, the authors of the lower classes being used for this purpose. Dramatic technique is studied in Aeschylus, Sophocles and Euripides, and oratorical technique in Demosthenes' De Corona. Exercises in Greek prose are required, and careful attention is given to the idiomatic character of all translations.

231-232. Elementary Greek.

241-242. Plato; the Apology and the Phaedo, Odyssey; Optional reading, Euripides, Hecuba, Herodotus, 3 periods per week. Composition—Written exercises.

251-252. Class author, first term, Sophocles, Oedipus Tyrannus, or Demosthenes' *Phillippics* or *Olynthiacs;* second term, Demosthenes' *De Corona* and Thucydides; Peloponnesian War, 3 periods per week.

261-262. Elective. St. Basil; Classical Literature, Plato, On the Republic.

271-272. Elective. History of Greek Literature. A study in particular of the drama and public festivals of the Greeks.

281D-282D. New Testament Greek. Readings from the Gospels, and discussion of idiomatic forms, 2 periods per week.

III. DEPARTMENT OF EDUCATION

(In conjunction with the Department of Philosophy.)

The primary purpose of this course is to impress upon the student that the ultimate aim of education is to bring man's conduct into conformity with Christian ideals. In order to attain efficiency in his work the student is obliged to formulate for himself a series of definite secondary aims. This is accomplished by a study

of History, Philosophy, and especially the sound principles of Psychology from an educational view-point. Although the course is particularly designed for future teachers, it is of general interest to all students, since the school is related to other social institutions of such fundamental importance as the home, the Church and the State.

301-302. Educational Psychology. The purpose of this is to make the students familiar with the applications of principles of sound psychology to school activities and problems. It embraces a study of the nervous system, the learning process, individual differences, transfer of training, and educational measurements, with specific reference to the secondary field. Open to Juniors and Seniors, and alternating with 311 and 322, 120 periods (90 clock hours).

301D-302D. Educational Psychology. Darlington, N. J. Identical in matter with the preceding.

311. Principles of Secondary Education Methods. (General Methods). This course is intended for students preparing to teach in the secondary school—religious, public, or private—though it also includes the fundamental problems of the elementary school. The following topics, among others, are discussed: the organization of school systems, classroom organization, control, discipline, management, drill lesson, planning, supervised studies.

(Special Methods). Types of learning involved in high school subjects: motivation, questioning, etc.; application of principles to specific courses. Open to Juniors and Seniors, 55 periods, (40 clock hours).

311D. Principles of Secondary Education. (General and Special Methods. Darlington, N. J. Similar to 311. Particular reference to the religious school, both elementary and secondary.

322. Philosophy of Education. The aim of this course is to study the fundamental principles necessary for the solution of evaluating present problems as well as changes in the field of education; analyses of agencies in religion and society; the Church, home, and school; economic interests; educative influences. Open to Juniors and Seniors, 55 periods, (40 Clock hours).

322D. Philosophy of Education. Darlington, N. J. Similar in scope with the foregoing.

331-332. History of Education. A general introductory course, tracing the historical development of education, with stress upon modern times. Junior class, 40 periods, (30 clock hours).

331D-332D. History of Education. Darlington, N. J. This course covers the same ground as the one above.

342. Observation and Practice Teaching, 100 periods, (70 clock hours).

IV. DEPARTMENT OF ENGLISH AND OF PUBLIC SPEAKING

The course of instruction in English aims, first of all, to give the student such mastery over his language as will enable him to use it, in speech and in writing, with correctness, clearness, grace and force. At the same time the student is taught to distinguish the good from the bad in literature, and to acquire and develop an intelligent appreciation of those works which have taken their place as classics of the literature. Work in English composition is required twice a month; each essay is corrected by the instructor, and, if time permits, read and discussed in the classroom. In connection with the study of the best textbooks on rhetoric and literature are read and subjected to careful, critical and literary analysis.

401-402. Rhetoric and Composition. Description: the underlying principles, problems of material and handling, accessories of description, human interest, aid from narrative movement.

Narration: the narrative movement, the vehicle of the story, nar-

ration in literature.

Text: The Working Principles of Rhetoric, by Genung. Freshman Class, 2 periods per week.

411-412. Literary Types. Exposition, poetics; history of English literature, composition, invention, phraseology; poetic diction and its interaction with prose, rhythm in poetry and prose; study of authors and criticism of their works, from Francis Bacon to end of Romantic Period.

Text: Genung's The Working Principles of Rhetoric; Pancoast's

English Literature. Sophomore Class, 2 periods per week.

del-422. Argumentation and Oratorical Composition. Argumentation in its type form and in ordered system.

Text: The Working Principles of Rhetoric, Genung.

Oratorical Composition: Sources of success in oratory, the invention, arrangement, and development of thought; different species

Text: The Art of Oratorical Composition, Coppins. Junior Class, 2 periods per week.

431D-432-D. Oral English. Special reference to sermon de-

441. Style and Diction: Nature of style, qualities of style, clearness, force, beauty; choice of words for denotation, figures for
Text: Canuse The Vision of Style, clearText: Canuse The Vision of

Text: Genung, The Working Principles of Rhetoric. Senior Class, 2 periods per week.

452. Poetics. Review and continuation of course 411-412. Sen-

461-462. Literature and Readings. From Beowulf to death of Shakespeare. Freshman Class, I period per week. Brother Leo, F.S.C.

471-472. Literature and Readings. From death of Shakespeare to 1800. Sophomore Class, I period per week. Brother Leo, F.S.C.

481-482. Literature and Readings. From 1800 to our times, particularly with reference to Newman and Tennyson. Junior Class, I period per week. Brother Leo, F.S.C.

481D-482D. Literature and Readings. Special reference to English Homiletic writers, as well as related instructional literature, I period per week. Brother Leo, F.S.C.

THE DEPARTMENT OF PUBLIC SPEAKING

The work of this department aims to give the student a thorough knowledge of the principles of oral expression and public address. Student declamations, addresses, class discussion and criticism, supplemented by lectures and a study of the classic models of oratory are the media of instruction. Any talent for speaking that a student may have, is fostered and developed. Every effort is made through personal attention to send forth, after the four years course, young men well trained in the art of public address. An exhibition of oratorical skill is held every year to which parents and friends are invited.

4091-4092. Principles of Vocal Expression. A Course in the fundamentals for oral delivery, proper breathing, distinct articulation and enunciation, the operation and control of the voice. The aim is to develop a correct and attractive style of oral delivery, particular care being given to the overcoming of speech taults and mannerisms. Prescribed course; I period per week.

4101. Principles of Visible Expression. Posture, platform manner, gesture, extended and coordinated application of principles developed in preceding course. Prescribed; 1 period per week.

4112. The Occasional Public Address. A study in the delivery of public addresses for special occasions; analyses, memorization, delivery, study of models; composition and rendition of original speeches. Prescribed; I period per week.

4121-4122. Extemporaneous Speaking. A study and application of the essentials of practical extemporaneous address; development of student's capacity to think while on his feet and to express himself clearly and forcefully without previous writing or memorizing of speech. Prescribed; I period per week.

4131-4132. Practical Oratory. Concrete problems facing public speaker; means of gaining and holding attention; the handling of mixed audiences; factors in persuasion. Each student is required to write and deliver a term speech on some current topic. Prescribed course; I period per week.

V. DEPARTMENT OF HISTORY AND SOCIAL SCIENCE

The courses in history given in the College are a development of those given in the High School, and, therefore, presuppose in the student a fairly general acquaintance with ancient and modern history. The purpose is to enable the student to trace the influences and the causes which have brought about great events and movements. Throughout the course, collated reading on the subject in hand is required of the student. The subjects for composition assigned in the Freshman and Sophomore classes in English are often based on the more interesting events of the period studied in the corresponding classes in history.

501-502. History of the Christian Era: From the Beginning of Christianity to the Outbreak of the Protestant Revolution, 1517. Textbook, Weber, General History of the Christian Era. Freshman

Class, 2 periods per week.

511-512. History of the Christian Era: From the Outbreak of the Protestant Revolution, 1517, to the Present Day. Textbook, Weber, General History of the Christian Era. Sophomore Class, 2 periods per week.

SOCIAL SCIENCE

521-522. Sociology 1. The purpose of the course in sociology is to give the student a sound philosophy of society and to examine modern sociological thought. The place of sociology in the field of philosophy is ascertained. The physical, spiritual, mental and moral factors in society are examined and explained according to the principles of Scholastic Philosophy as contrasted to views based on Positivism. An examination is made of the Natural Law, the nature of society, and a historical, philosophical, and practical treatment is given of the family, the Church, and the State.

The family is studied in its internal and external constitution. regarded both as a unit in itself, self-sufficient and autonomous within a limited range, and as the fundamental unit in the larger and naturally complementary social whole-the State. The origin, and naturally complementary social whole—the State. The origin, history, social needs and normal standards of the family are examined. Group activity, social institutions, social forces, and the social mind are investigated. The State is studied in its origin, authority and history. A study is made of the external life of the State; education; social legislation; population; immigration; Americanization, heredity; environment; experience state. Americanization; heredity; environment; eugenics; euthenics; euthanasia; social pathology; psychiatry; crime, its nature, prevention and correction. Revolutionary schemes of betterment are examined and evaluated. Definition of progress and civilization.

531-532. Sociology 2. The premises of sociology are examined. They offer essentially two methods of approach, since they are based either on theories or on facts. A study is made of some of the most important social facts relating to geographical conditions, race, sex, age, urban and rural mind, conditions of wealth, spontaneous socialization, association, domination, exploitation, and the different struggles, namely, class, personal, institutional and natural competition. The practical philosophy and the religion of our modern society are examined. Sociology, through finding the true facts about human society, harmonizing them with other known facts, teaching and spreading their knowledge, promises a progressively better organization of effort, will and thought; and works out the great principle of social justice as applied to human individuals and groups, from the family and the State to the inter-

national community of the whole mankind.

Practical sociology applies the sound principles of Catholic philosophy and theology to all social problems of family, state marriage, population, eugenics, morality and the child, education, crime, ownership, employment and wages. Reasonable principles are established by an examination of the moral, political and economic teachings in the social philosophy of the late Leo XIII to help the student refute the errors that were started in the name of sociology by the various socialistic, evolutionistic, materialistic, or rationalistic schools, and which have great influence in the writings of many modern sociologists.

Text: Introductory Sociology—Muntsch and Spalding.

Encyclical Letters of Pope Leo XIII.

Encyclical on Christian Education—Pope Pius XI.

Course open to Juniors and Seniors. Two periods per week.

VI. DEPARTMENT OF MATHEMATICS

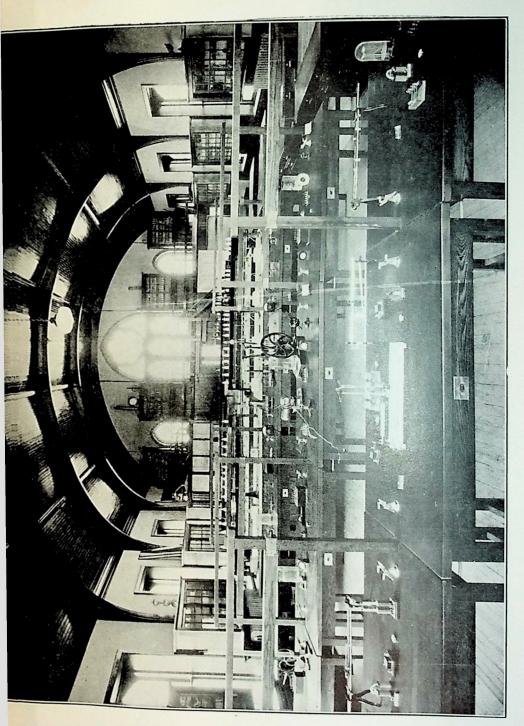

The instruction offered in this department is intended to aid in the development of concise and independent reasoning, and to inspire habits of original thought. At the same time it affords a preliminary equipment to those desirous of doing advanced work in physics and higher mathematics. Text-books are used both for study and for reference. Recitations are supplemented by original work, and are conducted with the object of testing the student's ability to apply what he has learned, rather than as a mere repetition of the work already performed. Plentiful use is made of the blackboard. Tests are required in all cases where tests are possible, and logical synthesis is insisted upon wherever combinations occur. The outlines of an appropriate general test are followed, but the method of teaching is suggestive rather than formal. Any tendency to make the study a matter of memory is discouraged at the outset, and no effort is spared to give predominance to the logical phase of the science.

601. Trigonometry Plane and Spherical. Theory of logarithms, use of tables, solution of triangles, equations, identities; goniometry, spherical triangles, applications.

Text: Wentworth's Plane and Spherical Trigonometry. Freshman Class a paried and spherical Trigonometry.

man Class, 3 periods per week.

612. Analytic Geometry. The point, straight line, equation and locus, the circle, parabola, ellipse, hyperbola, conics, tangents, normals, parametric and polar equations.

Text: Wentworth's Analytic Geometry. Freshman Class, 3 periods per week.

621-622. Mechanics. General principles of dynamics, the laws of motion, statics and dynamics of a particle and of rigid bodies.

Text: Merriman's Elements of Mechanics, Senior Class, 2 periods per week.

631. Astronomy. Mass, shape, and atmospheric condition of the earth, the constellations, planets, comets and meteors, the sun, the

planetesimal theory.

Text: Introduction to Astronomy, Moulton. Senior Class, 2 periods per week.

641. Differential Calculus. Text: Davis and Brenke. Sophomore

Class, 3 periods per week.

642. Integral Calculus. Text: Davis and Brenke. Sophomore Class, 3 periods per week.

VII. MODERN LANGUAGES

The modern language courses are necessary to round out the general training received by the student during his college career. They provide a means of securing an intimate acquaintance with the literature of foreign countries. Furthermore, since a working knowledge of at least one language other than the mother tongue is required to obtain any of the higher degrees, these courses take on an added value. The aim is primarily to enable the student to read at sight any selection from ordinary literature. Conversation is also stressed in actual class work.

701-702. French. For Freshmen who have not studied the language in high school. Rudiments of grammar, oral and written work, pronunciation, translation of simple French phrases, 3 periods per week.

Text: Complete French Grammar, by Fraser and Squair. Literature: La Tache du Petit Pierre, Mairet; Choix de Contes, Daudet; La Tour de la France, Bruno; L'Abbe Constantin, Halevy. 711-712. French. Prerequisite, two years of French in high

school. Grammar review, 3 periods per week.

Text: Complete French Grammar, by Fraser and Squair. Literature: Les Martyrs, Chateaubriand; Pecheur d' Islande, Loti; A Book of French Verse, Lucas.

721-722. French. Prerequisite, French 711-712. Grammar review, pronunciation, composition, 1 period per week.

Text: Short Review of French Grammar, Carnaham. Literature: Athalie, Racine; Le Cid, Corneille; Selections from Bossuet, Bossuet.

731-732. German. For Freshmen who have not previously studied the language. Syntax and simple readings, 3 periods per week. Text: Practical German Grammar, Thomas. Literature: Bilderbuch ohne Bilder, Anderson; Immensee, Storm.

741-742. **German.** Review of Grammar, readings from *Dreizehnlinden*, Weber; *Novellen*, Bolanden; Scheffel, Baumbach, and others, 3 periods per week.

751-752. German. Classical reading course. Rapid and critical reading of selected works from Goethe, Schiller, Grillparzer, Gotter, von Droste-Hulshoff, and Seeber, I period per week.

761-762. Spanish. Elementary course. Rudiments of Grammar, simple reading from Fernan, Caballero, Alarcon, Valdes, 3 periods per week.

Text: Spanish Grammar, De Vitis.

771-772. Spanish. Continuation of Grammar and reading from above authors. Practice in conversation, 3 periods per week.

Text: Spanish Grammar, De Vitis.

781-782. Spanish. Classical reading course. Selected studies from representative Spanish authors such as, Cervantes, Lope de Vega and Calderon, I period per week.

783-784D. Italian. Elementary Course. Rudiments of Grammar, simple reading from classics, conversation.

785-786D. Slovak. Elementary Course. Rudiments of Grammar, simple reading from classics, conversation.

787-788D. Polish. Elementary Course. Rudiments of Grammar, simple reading from classics, conversation.

789-790D. Lithuanian. Elementary Course. Rudiments of Grammar, reading from classics, conversation.

VIII. DEPARTMENT OF MUSIC

All resident students have one period a week of instruction and rehearsal for the Vesper service of the following Sunday. Vocal training is offered free of charge in the College Glee Club, and instrumental training in the College orchestra; all students who are sufficiently qualified are invited to join these organizations. While the further study of music is, of course, optional, excellent facilities are offered for the full development of musical talent. Private lessons in voice culture and in instrumental music may be taken under the direction of the Professor of Music.

IX. DEPARTMENT OF NATURAL SCIENCE

The aims of this department are: (1) to offer all students an opportunity to become acquainted with the facts of modern science, and the special forms of reasoning and method applied thereto; (2) to fill out the general training of undergraduates, and to prepare the student for later advanced work in the sciences. Special stress is therefore laid on thoroughness of preparation and the symmetrical development of the student's knowledge.

901. Inorganic Chemistry. Freshman Class, 4 lecture and 4 laboratory periods in the Scientific Course.

911-912. Inorganic Chemistry. Sophomore Class, 4 lecture and 2 laboratory periods in the Arts Course. Text: Introductory Col-

lege Chemistry, by Holmes. Manual: Manual of General Chemistry by the same author, a thorough treatise on the more important fundamental principles and applications of chemistry. The course does not aim to include every possible question of chemistry, but seeks to supply the solid foundation necessary for further work in the science.

922. Qualitative Analysis. Freshman Class, 4 lecture and 4 laboratory periods in the Scientific Course. Text: "Qualitative Analysis," by Baskreville-Curtmann. The course is intended to supply a clearly defined statement and practical application of the principles for isolating the metallic elements and acid radicals.

931-932. Organic Chemistry. Sophomore Class, 5 lecture and 4 laboratory periods in the B. S. Course. Text: Organic Chemistry, by Norris. Laboratory Manual: Experimental Organic Chemistry by Norris, a description and study of the aliphatic and aromatic compounds, with a short time on the carbohydrates, fats and proteins. The text is accompanied by a group of representative experiments in both branches of organic chemistry.

941-942. Physics. Junior Class, 5 lecture and 2 laboratory per-

iods in the B. S. Course,

Text: Text-book of Physics, Spinney. Laboratory Manual: Manual of Elementary College Physics, by Hammond, a study of general physics intended to emphasize the practical aspects of the science, to illustrate all the physical laws by reference to familiar phenomena and to exemplify clearly the principles of the science by suitable experimental work.

961 Biology: General biology, botany, general survey of plant kingdom, elements of morphology and physiology, zoology, application of biological principles to animal life with emphasis on the study of the frog; interpretation of facts in the light of Weismann's and Mendel's contributions to biology. 4 Lecture and 4 laboratory periods.

962. Comparative Anatomy: Structure and significance of various organs and vertebrates (confined to higher forms such as the dog-fish, turtle, and cat).

Text: General and Professional Biology, Menge; Anatomy of the Cat, Reighard and Jenning; Laboratory Manual, Giesen. 4

lecture and 4 laboratory periods.

971-972. Biology: General biology, structure of plants and animals, elementary vital phenomena; development of organs; principles upon which modern hygiene and sanitation are based; more important biological theories, such as evolution, mutation, and heredity; study of physiology. Senior Class, 3 lecture and 2 laboratory periods in the Arts; 4 lecture and 4 laboratory periods in the Scien-

Text: General and Professional Biology, Menge; Laboratory Manual, Giesen.

X. DEPARTMENT OF PHILOSOPHY

Note: The subjects indicated in Latin are held at the Immaculate Conception Seminary, Darlington, N. J.

Class work in this department is carried on by lectures, recitations, written papers and the preparation of theses. Students are trained in the art of logical analysis, and every inducement, in accord with the principles of sound philosophy as taught in schools under the auspices of the Church, is offered to secure correct conceptions on fundamental matters and problems of the day, and to encourage originality of thought and expression. The oral examinations in philosophy are held semi-annually in the presence of the Rt. Rev. Bishop and the Faculty of the College.

1001. Formal Logic. Province and definition of logic, foundations of logic; fundamental operations of thought, simple apprehension, judgment, reasoning; nature and divisions of propositions, import and various kinds of propositions, opposition and conversion of propositions; the syllogism and its laws, various kinds of syllogism; formal and material induction, example and analogy, fallacies, method and its laws, the Scholastic method. Junior Class, 60 periods, Hickey...

IOII. Major Logic. Definition of truth; certitude, kinds and degrees; universal scepticism, Cartesian doubt; primary facts and principles of the logician; various false theories about the ultimate objective criterion of truth; the origin of error in the understanding, the trustworthiness of the senses; consciousness, memory; belief based on human testimony, belief based upon Divine testimony. Junior Class, 65 periods. Summula Philosophiae Scholasticae.

1022. General Metaphysics. Nature and need of metaphysics; the notion of being, essence and existence, three attributes of being; unity, truth, goodness; the possibilities of being, finite and infinite in being; substance and accident, substance as hypostasis and personality; causality, relation, time and space; modern metaphysical theories. Junior Class, 65 periods. Summula Philosophiae Scholasticae.

1032. Cosmology. Origin of the world; Pantheism and Monism rejected; creation; the formal extrinsic glory of God; the nature of material substance, the atomic, dynamic and Scholastic theories regarding the nature of material substance, recent theories, electrons and radioactivity; the laws of nature; miracles, the possibility and fact; spiritism, hypnotism, mesmerism. Junior Class, 60 periods. Summula Philosophiae Scholasticae.

1041. Psychology, Empirical and Rational. Life in general, vegetable life; the origin of life, spontaneous generation and the experiments of Pasteur; Darwinian evolution refuted; the Christian attitude towards evolution; sensitive life, the senses, external and internal, sense-perception, imagination, sensuous appetite, feeling.

The Human Soul: Simplicity, spirituality, and immortality of the soul; recent theories concerning the soul; individuality and unity of the soul, union of the soul with the body, locus of the soul, origin of the soul; animal psychology. Summula Philosophiae Scholasticae.

Intellectual Cognition: Origin of ideas, judgment and reasoning, intellectual attention, reflection, self, memory, rational appetite, desire, free will; the emotions. Senior Class, 65 periods. Summula Philosophiae Scholasticae.

1041D. Psychologia Rationalis. De vita ejusdemque generibus et gradibus, de origine vitae et specierum organicarum, de vita vegetativa et sensitiva, de vita intellectiva, de intellectu humano; de idearum origine; de voluntate et de libertate; de animae rationalis natura, relatione ad corpus, origine. Quinquies per hebdomadam, semest, autumnal. Summula Philosophiae Scholasticae.

1051. Natural Theology. Proofs of the existence of an intelligent first cause or personal God, the fundamental attributes of the personal God, the fundamental relation of God to the world; refutation of Pantheism; doctrine of the creation; the Divine intellect and will, the omnipotence of God, the metaphysical essence of God; Divine preservation and concurrence; Divine Providence and its relation to existing evil; possibilities of a supernatural providence. Senior Class, 60 periods. Summula Philosophiae Scholasticae.

1052D. Theodicaea. De Dei existentia et essentia; demonstratio a posteriori divinae existentiae; de normis actuum humanorum directivis, de lege, de conscientia morali. Quater per hebdomadam, semest, vernal. Summula Philosophiae Scholasticae.

1061. General Ethics. Happiness, human acts, passions, habits and virtues, origin of moral obligation; the eternal law, the natural law of conscience, the sanction of the natural law; hedonism and utilitarianism. Senior Class, 65 periods. Elements of Ethics, Miltmar.

1061D. Ethica Generalis: Definitiones, de Fine et Actibus, de Moralitate, de Lege, de Virtutibus et Vitiis, de Conscientia, de Perfectione morali, de Juribus et Officiis in genere, erga Deum, seipsum et proximum, Hickey.

1062. Special Ethics. The philosophy of religion; individual rights and duties, suicide, dueling, charity and justice; freedom of conscience, right of self-defence; ownership. Senior Class, 60 periods. Elements of Ethics, Miltmar.

1062D. Ethica Specialis Socialis. De societate humana in genere; de societate domestica; de societate civili; de jure internationali; de societate civili et societate ecclesiastica inter se comparatis. Quarter per hebdomadam, semest. vernal, Coppens.

1081-1082. History of Philosophy. Senior Class, 35 periods. Coppens.

1081D-1082D. Historia Philosophiae, ut 1081-1082.

XI. THE DEPARTMENT OF PHYSICAL INSTRUCTION

In considering the educative value of gymnastics and athletics, the most important principle is, that neither of these activities can serve as a substitute for the other. Each contributes some essential part of a complete physical education. Gymnastic exercises are largely subjective in character; they serve particularly to stimulate normal physical development, and to promote good carriage and easy coordination in motion and locomotion. In this respect, gymnastics differ radically from athletic exercises, for in the latter the primary object is always to produce some effect outside the individual, and the effect of such exercises is incidental and secondary.

The educative and hygienic effects of exercise are susceptible of definite control in gymnastics, and the particular effect produced depends partly upon the movements selected, but mostly upon the manner of their execution. The educative effects are best secured by careful selection and sequence of exercises suited to the state of psychomotor development of the individual, and by a method of teaching which demands accuracy, precision, and speed in execution. The best hygienic effects are produced by adapting the movements to the strength of the individual.

It is evident that gymnastics must play an important part in any educational scheme, because the need for systematic psychomotor training and vigorous muscular activity for organic development tends to increase as life becomes more complex and specialized.

1101. Calisthenics. One period per week each year.

1102. Apparatus Work. One period per week each year.

ALUMNI ASSOCIATION OF SETON HALL COLLEGE

This association was organized in 1882 and has as its object the promotion of friendship among its members and the fostering of affection in them for their Alma Mater. On account of the interest aroused by the formation of the Catholic Alumni Federation, the association is expected to be more active in the future.

OFFICERS

President-Francis P. MEEHAN

18 Eastern Parkway, Newark, N. J.

Vice-President-Rt. Rev. Msgr. Edward F. Quirk, '99,

91 Washington Street, Newark, N. J.

Alumni Secretary—Edward L. Jennings, '09,

Seton Hall College, South Orange, N. J.

Recording Secretary-WILLIAM A. SMITH

28 North Spring Garden Avenue, Nutley, N. J.

Treasurer—Rev. James A. Hamilton, '19,

Seton Hall College, South Orange, N. J.

Delegates to the National Catholic Alumni Federation-

The President, Ex Officio

PAUL J. O'NEILL

Alternate-Joseph F. IGOE

Board of Governors-The Officers, Ex Officio

REV. C. J. AHERN
HON. EUGENE F. KINKEAD
JULIAN A. RONAN
JOHN J. HALL
ANDREW S. McDonough
ANDREW B. CRUMMY

Graduates who may desire to keep up their connection with Seton Hall by becoming members of the Alumni Association will please communicate with the Alumni Secretary, Mr. Edward L. Jennings, Seton Hall College, South Orange, N. J. The annual meeting and reception will take place at the College on the evening before Commencement.

COLLEGE ORGANIZATIONS

All College organizations are under the supervision and direction of the College authorities, who reserve the right of veto in all matters affecting the welfare or discipline of the institution, and also in election of officers.

THE APOSTLESHIP OF PRAYER

The Apostleship of Prayer, League of the Sacred Heart, is in the most flourishing condition. All of the students are enrolled in the first and second degrees, and the majority of them in the third. The general monthly communion is made on the first Friday of each month, when all the students of the College approach the Holy Table...

Local Director: Rev. Harold J. Dilger, A.M., S.T.L.

THE SOCIETY FOR THE PROPAGATION OF THE FAITH

The Society for the Propagation of the Faith has been established in the College. Interest in the home, as well as the foreign missions is stimulated and all the members are cooperating, as far as lies in their power, with the efforts made by the Church to bring the entire human race into the True Fold.

Local Director: Rev. Harold J. Dilger, A.M., S.T.L.

THE ALTAR SOCIETY

The Altar Society is composed of students of both the High School and College Departments who are engaged in serving in the Sanctuary during divine worship. Regular meetings are held whereby these selected students are taught the elements of the Roman ceremonial. Due attention is also paid to the origin, development and symbolism of the sacred rites, so that the meetings have an educative and spiritual value.

Moderator: Rev. Harold J. Dilger, A.M., S.T.L.

THE CHAPEL CHOIR

This choir furnishes vocal music for the services in the Chapel, especially for the Holy Sacrifice of the Mass.

Director: Rev. Harold J. Dilger, A.M., S.T.L. Organist: Prof. F. C. L. Schreiner, Dr. Mus. Asst. Organist: Emil R. Suchon.

"THE SETONIAN"

For diffusing knowledge of Setonian activities among the students, and for uniting them in loyalty and devotion towards their Alma Mater, "The Setonian," a monthly publication, is now issued.

Moderator-RT. REV. PRESIDENT Editor-in-Chief-HERBERT J. DWYER, '30 Associate Editors-J. HAROLD SYMONS, '30 RAYMOND L. CUNNEEN, '30 John Scowcroft, '31 James A. O'Connell, '31

Business Manager-Bernard M. Sweeney, '30 Assistant Business Manager-John J. McGuire, '31

"THE WHITE AND BLUE"

The Senior Class issues an annual known as "The White and Blue," the purpose being to prepare a memorial to the Graduating Class. The officers for the year of 1928-1929 were:

Moderator-Rev. John J. Sheerin, A.M. Editor-Eugene V. Higgins, '30 Business Manager-JAMES A. CAREY, '30

SETON HALL DRAMATIC SOCIETY

The object of this Society is to improve the elocutionary abilities of its members by training them in the art of dramatic expression. Every year a public presentation is given.

Director

Professor George A. Brooks, A.B., LL.B. Moderator-Rev. Thomas H. Powers, A.M.

Business Manager

Secretary JAMES A. CAREY, '30 EDGAR A. VERHOEST, '32

THE COLLEGE GLEE CLUB

A director appointed by the President instructs the members of the Glee Club free of charge. The Club gives entertainments during the year and furnishes vocal music for public exhibitions.

> Director Rev. Adrian A. Maine, A.M.

THE COLLEGE ORCHESTRA

The Orchestra is composed of students of the College Department. In conjunction with the College Glee Club, it furnishes entertainment during the school year for the student body. In all public performances, likewise, it renders the musical features of the program.

F. C. L. Schreiner, Dr. Mus.

SETON HALL ATHLETIC ASSOCIATION

The Athletic Association under the supervision of one of the Reverend members of the Faculty, together with the physical directors, arrange schedules in the principal sports together with the principal Colleges in the East.

President—James A. Carey, '30
First Vice-President—T. Richard Dougherty, '31
Second Vice-President—Walter T. MacGowan, '32
Secretaries—Joseph S. McCauley, '31
Edgar A. Verhoest, '32

Treasurer—Rev. Charles E. Lillis, A.M.

Manager of Baseball—Daniel P. Reilly, '31

Captain of Baseball—Edward W. Madjewski, '32

Coach of Baseball—Milton E. Feller, A.M.

Manager of Basketball—Salvatore E. Basile, '31

Coach of Basketball—Francis A. Hill.

Manager of Track—Matthew G. Cummings, '31

Captain of Track—James V. Finley, 31

Coach of Track—Addison B. Clohosey, '29

SENIOR CLASS ORGANIZATION

The Senior Class has its own organization, with its duly elected officers, who transact class business and represent the class in its relations with the Faculty.

President—James Vincent Finley Vice-President—Bernard Michael Sweeney Treasurer—James Aloysius Carey Secretary—Matthew Gabriel Cummings

JUNIOR CLASS ORGANIZATION

The Junior Class is organized with its own officers chiefly for the purpose of making satisfactory arrangements for the annual "Junior Night" entertainment, given by the class on the feast, or on the eve of the feast of St. Joseph, the Patron Saint of the College.

President—Joseph Patrick Bradley Vice-President—Thomas Richard Dougherty Treasurer—Joseph Martin Tierney Secretary—James Anthony O'Connell

SOPHOMORE CLASS ORGANIZATION

For carrying on the different activities of the Sophomore Class, the following officers have been elected for the current year:

President—John Alfred Warnock
Vice-President—Henry Francis Singleton
Treasurer—Edward Raymond Neary
Secretary—Richard Aloysius Rush

FRESHMAN CLASS ORGANIZATION

Because of the frequency with which the class has to act as a moral unit, the class is organized with the following officers:

President—Thomas Joseph Gillhooly
Vice-President—Joseph Aloysius Fleming
Treasurer—Thomas Patrick Barry
Secretary—Eugene Vincent Kenney

GRADUATE DEPARTMENT

REQUIREMENTS FOR THE DEGREE OF MASTER OF ARTS

The purpose of the Graduate Department is to afford students who have regularly secured the baccalaureate degree (A.B.), the opportunity for advanced work in the various branches of the Arts and Sciences. Since this should require actual concentrated work, its purpose is to offer advanced instruction in Philosophy, Language, Literature, Social and Natural Sciences. At present this Department functions in connection with the first and second year of study in the Theological School at Darlington, N. J. The Master's degree in Arts or Letters is offered to those students who, having obtained the baccalaureate degree from a college of recognized standing, have followed approved courses of graduate study for at least two years in residence at Seton Hall College, or its associated faculties, and who have satisfied the requirements mentioned below.

REGISTRATION

The applicant for the Master's degree must be a duly registered student of the Graduate School.

COURSES OF STUDY

The work required shall include ordinarily at least 24 units of graduate work, twelve of which shall be devoted to the principal subject, the major, and twelve to be divided between the first and second minors. The program once approved cannot be changed without the approval of the Director of the Graduate School.

Students pursuing Theological branches will follow the courses prescribed. Should a student be able to complete the twenty-four units in one year of residence, he shall present the subject of his essay on or before November first of the year in which he takes up his graduate work.

MODERN LANGUAGE REQUIREMENT

The candidate for the Master's degree must, from the beginning, give proof by examination, which may be either oral or written, of his ability to read and translate technical literature relating to his major subject in at least one foreign language. Usually this should be French or German, but in some cases Spanish or Italian will be accepted.

ESSAY

The distinctive requirement for the Master's degree is the preparation, upon a theme approved by the professor in charge of the major subject, of an original essay of not less than 6,000 words. Two typewritten copies of this essay, substantially bound, must be submitted to the Faculty of the Graduate School not later than April 15th of the year in which the degree is to be conferred. The title page, besides containing the full title of the essay and the year and place of imprint, must bear the words:

Submitted in partial fulfillment of the requirements for the degree of Master of Arts (Science or Letters) in the Graduate School

of Seton Hall College.

There must also be prepared a biographical sketch, giving the date and place of birth of the student, the secondary and higher educational institutions he has attended, the degrees and academic honors conferred upon him, and the courses pursued at the College.

The essay shall in no case be printed until approval for printing

has been granted by the Faculty.

EXAMINATIONS

If the essay be approved by the Faculty, the candidate for the Master's degree will be admitted to a written or oral examination in his major work. His proficiency in minor subjects will likewise be tested by oral or written examinations at the end of each semester. In no case will a candidate be admitted to an examination unless he has completed, to the satisfaction of the professor in charge of the particular course, all work assigned him, either individually or as a member of a class.

SETON HALL HIGH SCHOOL

The attention of parents and friends is called to Seton Hall High School, under the direction of the Diocesan Clergy, and the administration of the Board of Trustees of Seton Hall College.

Seton Hall High School was organized in 1899, and offers prospective students the Classical and the Scientific Courses. These courses are registered by the New Jersey State Board of Education and by the Regents of New York.

Seton Hall High School has its own distinctive Faculty, composed of priests and laymen, all of whom hold collegiate degrees.
