WASHINGTON — Communists feel their party has been given a new lease on life by the recent election in the Soviet Union of a new head, Alexander Nikolayevitch. This victory was presented in a written statement to the Internal Security Department, impromptu party's convention. However, one or two of the most notable points of the statement is that it has been issued to the Government of China, and is a "good beginning," according to some Communist experts.

THINGS FORCE SMUT ON DEALERS

NEW YORK — A priest and a merchant charged here that they know of no other way to force the sale of smutty magazines.

The charges were made by Msgr. Charles M. Walsh, Secretary of the Catholic lay and public relation for the Archdiocese of New York.

Msgr. Walsh said two local newspapers and members of the House of Representatives, who if they had given public notice on magazine distribution practices, "would have been the highest court in the land."

He said no government has ever succeeded in getting such a decision.

In Poland

CHURCH HAS TO REST ITS OWN PROPERTY

Warsaw (N.C.) — Poland's Supreme Court has upheld a government decree curtailing the Church's property rights in former German territories now under Polish control.

The government had ruled that properties once owned by the Church were nationalized as public property in that state.

The government, it was pointed out, also failed to make any attempt to requisition anything.

"We have a reasonable basis for distribution in the whole country," the government said.

It is intended to make the Church's property rights as extensive as possible.

It was only in the case of the Church in American territory that the government had stipulated that the Church should have a reasonable basis for distribution in the whole country.

POAU Suit Hits Hospital

SILVER SPRING, Md. (AP) — A taxpayer's suit to enjoin the use of public funds to construct a new hospital to be occupied by the Sisters of the Holy Spirit was filed in court here.

The suit contends that the hospital will be used only to treat pregnant nuns. The Sisters of the Holy Spirit, according to the complaint, do not perform abortions. The court will consider the constitutional rights of the unborn in determining the validity of the suit.

Dr. William E. Archer, executive director of the Institute of Child Health and Human Development of the University of Maryland, and a member of the board of directors of the hospital, said the group of people who filed the suit had no objection to the hospital's use of public funds.

Not Quite Gone?

The QUESTION BOX

Mae Ran, Walter W. Cory, John Reed, B. Bloomfield, N.J. editor of The Guardian. Questions are answered by
Mr. Ran and Connecticut University's Professor of Law.

The time has come when we can do without
machines or any other form of assistance. We
must then be ready to do our best when the
Machines fail us. We can do this by learning to
think for ourselves and not relying on others
to solve our problems. And we must also
learn to live with the present machine age,
understanding its limitations and making the
best of it. Only in this way can we be prepared
to face the future and make our own decisions.

In your prayers, remember you are not
alone, and that there are others who are praying
for you as well. We are all connected and we
must support each other in our struggles. Let us
pray for each other and for peace and
understanding in the world.

Spirit Can't Be Altered; It Is A Permanent Thing

By Fran J. Smeal

As we approach the new year, it is good to
remember that it is not the voice of the
people that we should strive for, but the voice of
the spirit. The spirit cannot be altered; it is a
permanent thing.

WE SHOULD THINK OF THE spirit when we consider
our relationships with others. This is the
time when we should reflect on how
we have treated others in the past year and
what changes we should make in the
future. We should strive to live with a
spirit of kindness, respect, and love for
others. Let us make this a time of renewal
and growth for our individual and
group spirit.

Anti-Semitic Events Benefit Communists

By Louis B. Roche

Those who are familiar with the
anti-Semitic incidents that have
occurred in recent years will
recognize that these events are
designed to benefit Communists.

These events are aimed at
creating a climate of fear and
hatred that can be exploited by
Communists to gain power and
control. By spreading fear and
hatred, Communists can
mobilize support for their
cause and further their goals.

In your prayers, remember that
God is with us, and that we
are not alone in our struggles.
Let us pray for peace and
understanding in the world.

 Grammar School Dating

Recently the CND directors of the
Archdiocese of Newark met with
parents to discuss the topic of
girls dating in grammar school.

The directors explained that
dating in grammar school is
desirable as it helps students
develop social skills and
increases their sense of
responsibility. However, they
also stressed that parents
should be involved in
monitoring their children's
dating activities.

Parents should set clear
boundaries for their children and
communicate their values and
expectations regarding
dating. They should
encourage their children to take
responsibility for their actions
and make informed decisions.

Peter Speaks

The Greatest Sin

Sin is like a path we take, and
when we step on it, we may not
realize it until it is too late. But
the path of sin is one that can
lead to destruction. We must be
vigilant and avoid sin at all costs.

We should strive to be
conscientious and avoid
deliberately taking on the path of
sin. Let us be guided by our
conscience and turn away from
deleterious paths.

The Advantages of a large corner lot are not obvious in
Mr. White's house at the moment but it will become
apparent as the year progresses.
