Race Rioting Deplored

BREMINGTON, Alas. — In a stirring editorial in the Saturday issue of the Birmingham News, the diocesan newspaper of the Archdiocese of Mobile, Georgia, the editor deplored the outrages committed by police and National Guardsmen against peaceful Negro demonstrators who were attempting to march to the city's jailhouse to protest the brutality of the guardsmen.

The editor said that the guardsmen's actions were a disgrace to the city and to the state, and that they were a threat to the safety and welfare of the community.

The editor urged the mayor and the city council to take immediate action to end the violence and restore peace.

Pope John Stresses Merit of Suffering

VATICAN CITY — Personal suffering should be joined in the suffering of Christ by members of the Church and by the faithful, Pope John XXIII said in a radio and television broadcast on Sunday.

"Suffering is not just a personal misfortune," said Pope John, "but is a personal gift which Christ has given to those who wish to become his disciples."

In his message for the International Year of the Poor, the pope said that the poor are not just "the victims of hunger and injustice," but "the missionaries of love." He urged people to "try to understand today's suffering and help the poor in their struggle for freedom and justice."

In the broadcast, Pope John also called for a "new" society that would "distribute its riches and labors justly among all its members." He said that the church's role is to "educate men and women in the spirit of love and charity." He said that the church's role is to "educate men and women in the spirit of love and charity."

**Victory Plus**

The faith and generosity of Catholics in the Archdiocese of Newark has been tested and tried by the recent financial difficulties that have beset the Church. Under the leadership of Rev. Rt. Rev. Rev. Pref. Peter J. G. Quinlan, Archbishop of Newark, and the Board of Directors, a plan was developed to ensure the financial stability of the Archdiocese. The plan includes several key components: a comprehensive budget, increased fundraising efforts, and the sale of Archdiocese assets. The response from the Catholic community has been overwhelming, with thousands of individuals and organizations contributing to the cause. The Archbishop and the Board are confident that with the support of the Catholic community, the Archdiocese will emerge from this difficult period stronger and more secure.

**Private Schoolers 'Peripheral'**

In all, the government's attempt to remove the Catholic schools from the system is a shortsighted move. The schools are a vital part of the fabric of our community, providing education and spiritual guidance to thousands of students. The government's action is not only unfair but also ignores the contributions that these schools have made to society. The government's failure to acknowledge the importance of these schools is a serious oversight.

**The Great Love**

You are loved with the eternal love of God. You are loved with the unconditional love of Christ. You are loved with the love that will never end. You are loved with the love that is perfect and eternal. You are loved with the love that is beyond measure. You are loved with the love that is greater than life itself. You are loved with the love that is even more than the love that is perfect.

**Where We Belong**

Mobility is one of the principal characteristics of American life in the present era. People whose occupation or environment compels them to move from place to place are a large segment of the population. The mass development of transportation facilities has made it possible for millions of people to move from one part of the country to another with relative ease. The movement of people from one place to another for occupation or education or recreation is not new. Since mobility is a normal part of social life, it is not likely to disappear in the near future. The problem of mobility is one that must be faced by all who are concerned with the welfare of the community.

**Distractions During Mass Are Not at All Unusual**

By Fred J. Shum

A somewhat facetious fact about Mass is the contemporary distraction and offering during worship. It is a common experience to see people looking at their gold watches, checking their wardrobes, or conversing with their neighbors. The clergy must do well to note the multitude of distractions that are commonplace in contemporary worship.

**Why Cuban Reds Attack Cardinal**

By Luis F. Budzak

From an ideological perspective, the Communist Party of Cuba has always been an opponent of the Catholic Church. This is because the Church represents the traditional forces of the society and has always been an ally of the bourgeois class. The Communist Party of Cuba, therefore, views the Catholic Church as an obstacle to the revolution and as a source of opposition to the new socialist society.

West to East

By Bishop Fulton J. Sheen

We are living in a time when the political, economic and social systems of the world are revolting against our West. But even in this tumult, there is a new call from the East to the West. This call is heard by the hills and mountains of Asia. It is a call from the spirit of the Asian people. It is a call from the people of the East. It is a call from the East to the West. It is a call from the East to the West.

Father Koezer New Graymoor General

WASHINGTON (AP) — Rev. Bonaventure Koezer, S.J., was elected Superior General of the Society of the Immaculate Conception—Graymoor Friary—during a chapter meeting of the community.

He succeeds Rev. Augustin Delahunt, S.A., who has served two years as the superior general of the community. As Superior General, Father Koezer will be in charge of the S.A. Province in New York City, Guam, the Midway Islands, the Kingdom of Tonga, Palau, the Federated States of Micronesia, the Federated States of Micronesia, and the Solomon Islands.

The community is also now engaged in the papal mission in Latin America. One of the priorities in the papal mission is the education of young people, and Father Koezer said he will work with the Graymoor Friary to promote this goal.

The Superior General, in his inaugural address, said he will continue the work of his predecessor, Father Delahunt, in promoting the mission of the Graymoor Friary.

New York Schools Told To De-Eliminate Prizes

NEW YORK (AP) — Catholic schools in New York are being told to de-eliminate prizes in athletic competitions.

The New York Catholic Schools Conference, a group representing Catholic schools in the state, released a statement urging schools to phase out the use of prizes in athletic competitions.

The conference said that prizes are not appropriate in academic competitions and urged schools to consider alternatives such as certificates or other non-monetary rewards.

The conference's statement is in response to a recent decision by the Archdiocese of New York to phase out the use of cash prizes in athletic competitions.

It is the current practice of the conference to keep track of the number of athletic competitions, but it will no longer be done this way.

SUCCESS, N.Y. — Preparation of two additional community services, in the form of a liquor store and a hospital, has been under way in the last few months in this community of the Long Island suburb.

Community leaders recently announced that a liquor store is to be built on a site near the center of the community, and that a hospital is to be located about a mile away from the center. The plans for both facilities are being drawn up by architects and engineers, and construction is expected to begin soon.

The liquor store will be a one-story building with several entrances, and will be designed to accommodate a large number of customers. The hospital will be a modern structure, equipped with the latest medical facilities, and will provide comprehensive care for patients.
