Red Hungary Catholics12
Treason Trial Defendants

VIENNA (2) — Twelve Hungarian Catholics, priests and laymen, were sentenced to prison on charges of plotting the overthrow of the government and setting up an allied of an unidentified foreign power.

There are now 20 charged in the case — five priests, including Rev. Istvan Kubik, who was charged with high treason and sentenced to 16 years in prison.

Although the trial ended in July, the charges were brought three years ago. The defendants were accused of planning to murder key officials of the government.

REV. OSWALD LINDER, a well-known priest, was sentenced to 16 years in prison. He had been charged with high treason.

The sentences were handed down in a packed courtroom.

Church officials have expressed concern over the sentences, saying they are too harsh.

The trial, which lasted eight months, was conducted in secret.

Church officials have said they are committed to peaceful methods.

Daily Mass was celebrated in the prison, and a children's choir sang in the courtroom.

The defendants have appealed the sentences.

The government has denied the charges and said they are a matter of internal security.

The trial is expected to last several more months.

Clergy Changes Made in Paterson

PATERNON — Bishop McCarthy has announced the appointment of Rev. Donald Dohle as assistant pastor of St. Mary's Church. The Rev. Dohle has been serving as vicar of the diocese and will assume his new duties on August 1.

Rev. Dohle is a native of Paterson and was ordained a priest in 1965. He has served in various parishes in the diocese and is well known for his work with young people.

The appointment is effective immediately.

The Rev. Dohle will be responsible for overseeing the education and religious activities in the parish.

Paterson, known as the "City of Churches," has a large number of Catholic schools and churches, which makes it an ideal place for him to work.

Bishop McCarthy said, "I am confident that Rev. Dohle will be a wonderful addition to our staff and will contribute greatly to the spiritual life of our parish."

Birth Control Case Dismissed; 'Belief in God' Law Is Upset

WASHINGTON—The U.S. constitutional right to have will be protected by Supreme Court this week in a decision that will turn over the control of our birth control over to the state and church. The court's decision will resolve a conflict between state and federal laws, and a religious belief in God.

The Supreme Court recently ruled that the "right to life" is a fundamental right protected by the Constitution. In this case, the court ruled that the constitutional right to have was not violated by the state's policy of limiting the number of children a woman could have.

The court's decision will have a significant impact on the state's ability to control birth control. The court ruled that the state's policy of limiting the number of children a woman could have was unconstitutional, and that the state did not have the authority to limit the number of children a woman could have.

The court's decision will also have a significant impact on the church's ability to control birth control. The court ruled that the church did not have the authority to limit the number of children a woman could have, and that the church did not have the authority to prohibit the use of birth control.

The Witnesses of Jehovah...

(Abridged from Page 3)

By nature, men are inclined to a materialistic and non-spiritual existence. But the true Christian is different. He is one who has received the Holy Spirit and knows what it means to be a Christian. Jehovah has made it clear that the role of the Christian is to proclaim the good news of the Kingdom of God. This is the message of the New Testament, and it is the message that the Witnesses of Jehovah proclaim.

Challenge to a Mayor

The advocates of communism have set as their goal the establishment of a major-manned form of powers.

Alexander Berkman, the well-known Russian-born American author has written a new book, "The Proletarian". In it, he sets forth the beliefs of those who hold to the theory of "permanent revolution".

Dr. Constantine Pilotis, a member of the American Communist Party, has just written a new book, "The Communist Manifesto of 1848". In it, he attempts to demonstrate the validity of the theories of Karl Marx and Friedrich Engels.

Where the second largest city in the state grew up, a new city is being built. It is not to be a city of the old sort, with its rows of uniform houses that have stood the test of time. It is to be a city of the future, where every family will be its own master.

In the early years, the city was little more than a group of small houses. Now it is a city of thousands, with factories and trade centers. The people who live here have a chance to control their own destinies.

The leaders of the city are faced with a difficult task. They must make sure that the city is run in a way that will benefit all the people. They must work to make sure that the city is a place where everyone can live in peace and prosperity.

The new mayor of the city, John Doe, takes office this week. He is a man of the people, and he is determined to make the city a better place for everyone.

Victory for Americanism

The United States Supreme Court in its recent decision by a 6 to 3 vote was reversed by the Supreme Court of the United States. The Court's decision was that the presidential election of 1940 was a violation of the constitutional rights of the people.

For the preceding 10 years there has been an effort to bring about a new form of government. The United States has been described as a "totalitarian" state. This means that the government has complete control.

But the Supreme Court has now reversed this decision. It has said that the presidential election of 1940 was held in a fair and free manner. It has therefore declared that the government is acting in a democratic and constitutional way.

More Than Games

Within two weeks the archdiocese will hold a public meeting in order to register with the Democratic and Republican parties. This will be the first time that any city has taken this step. It is a move that will help to bring about a more open and participatory political process.

Many people in the city have been coming out to support this initiative. They want to see a change in the way that politics are conducted. They believe that the people should have a say in how their government is run.

Freedom Riders

Don't debate with the facts; we have our own facts. Don't argue with the evidence. Maybe those “liberals” in the land of the free, the home of the brave, are the first to learn the meaning of freedom.

Man and Wife May Argue But They Are Still One

By Frank J. Hudak

When a man and a woman have been married for a long time, they often have a different view of their relationship. The husband may think that his wife is too demanding, while the wife may feel that the husband is too controlling.

Within the state of marriage, the husband and wife have a common interest. They are partners in a unique relationship. This is why they should be able to work out their differences and resolve their disagreements.

Court's Decision: Uphold Upset Communists

By Linda F. Buchanan

In a decision that may change the course of history, the U.S. Supreme Court has upheld the conviction of a group of communists. The Court ruled that the communists were guilty of conspiracy.

We can see that the Court has ruled in favor of the government. However, we must remember that the decision was made by a majority of justices. This means that there are still some justices who disagree with the decision.

The Question Box

June 22, 1961
Dear Editor.

The recent reading of many printed material in the last few days has revealed to me the following points that I would like to share with you.

- The recent decision by the government to impose taxes on imported goods has had a significant impact on the local economy.
- The recent rise in the cost of living has led to increased pressure on families to find ways to save money.
- The recent announcement of the new education policy has raised concerns among parents about the quality of education their children will receive.

I hope that these points will help in shaping more informed opinions and discussions.

Yours sincerely,
All Ireland celebrates the Patrician Year—1961

Make your pilgrimage to St. Patrick's Cathedral this year, as all Ireland commemorates the 1,600th anniversary of its patron's death. Visit Lough Derg or Croagh Patrick, and many others, as you choose.

Of course, you'll start your pilgrimage with a flight aboard the beautiful new British Overseas Jet of Irish International Airlines, which flies the first Patrician Congreg. You'll arrive in Ireland after less than two hours, completely bedazzled and enthralled by your Irish hospitality. You'll then have a chance to see the legendary Ring of Kerry before you leave for Lough Derg, where you'll see them there for a short but very pleasant stay at Ballysaggart House before taking a flight to the continent.

For your second stop you're welcome to find yourself in the midst of a world of the St. Patrician family. Lough Derg, Derry, Down, York, and London are all in the heart of Ireland.

**Freedom and Today's Christian**

By: EDWARD J. LEE

An excellent choice for those who are interested in understanding the complex and changing world of today's Christianity. This book provides a comprehensive overview of the current state of the church and its role in society. It covers a wide range of topics, from the history of the church to its present-day challenges and opportunities.

**Sightseeing and Dalmatians**

By: JOHN SMITH

A delightful read for anyone who enjoys a good mystery. The story follows a group of tourists on a sightseeing tour of Dalmatia, where they discover a series of clues leading to the solution of a crime.

**War Can Be Funny**

By: JANE DOUGLAS

A humorous take on the military, this book uses a combination of humor and satire to explore the nature of war and its impact on society. It's a great read for anyone who enjoys a good laugh at the expense of the absurdity of war.

Cites Value of Radio For Spreading Faith

By: KE WOODWARD

JEFFERY CITY—This year of television-distributed radio to some offshore, unprofitable position, certainly not, says five W. S. DORN, S.S., of St. Peter's Hospital.

A regular contributor to both radio, is convinced of the definite value of radio for a means of spreading the truths of the Catholic Church. "It is difficult since people are too busy to read or listen to books and materials available in the diocese," he says.

FATHER DOLAN believes the radio program should be continued, especially in the Eastern Diocese, but he is afraid to try an experiment in several dioceses.

There has been a demand for a program of mass and music on the Catholic Radio, and Father Dolan has been following the program for a long time. He feels that the program could be expanded to include a wider range of religious music and broadcasts.

Some objectionable films are so objectionable that they are not suitable for adults. I think that objectionable films should be banned for adults.

Radio Fight Against Communism

By Floyd Anderson

BOGOTA, Colombia — It was impossible to concentrate the importance of radio in Latin America. Sometimes we in the United States tend to forget what a force radio is in Latin America and what a country by country basis the radio can be used to turn back socialism and communism. It is estimated that in many Latin American countries radio does not function at all.

This was graphically brought to my attention the other day by Mr. Carlos Barragan, who is the head of the Latin American Radio Summer School of the International Catholic University in Bogota.

Mr. Barragan said that in Brazil there is about 98,000 radio stations in the country, and while there are radio stations in many of the Latin American countries, they are not on the same level. Mr. Barragan said that currently there are about 300 radio stations in Brazil, and that there is a large range of programs available today in Brazil.

Barragan also said that in Brazil, the radio is in the forefront of the battle against communism. He said that radio is used in various states in Brazil, and that the radio is used to spread positive messages, as well as to combat communism. Mr. Barragan said that radio is used to spread the message of the Catholic Church and to promote values such as family, respect for authority, and patriotism.

Mr. Barragan said that radio is also used to combat the spread of communism in Brazil, and that radio is an effective tool in this struggle. He said that radio is used to spread positive messages and to combat negative ones, and that radio is a powerful ally in the battle against communism.

Mr. Barragan also said that radio is used to spread the message of the Catholic Church and to promote values such as family, respect for authority, and patriotism. He said that radio is an effective tool in this struggle and that radio is a powerful ally in the battle against communism.

The interest of Bishop McNulty in Loyola is demonstrated by the fact that he has been a member of the Jesuit order for 35 years. He was ordained in 1921 and has been in St. Peter's College since then. He has also served as a professor of history and as a teacher of English and Latin. He is presently serving as the chancery of the Diocese of Paterson.

The program will be conducted by a team of Jesuit priests and includes a variety of activities, such as talks, discussions, and prayer. It is designed to provide a space for students to reflect on their faith and to engage in meaningful conversations with their peers.
