Syllabus

Coronavirus Safety: Things are NOT back to normal – we are still living through a pandemic. As Seton Hall returns to in-person classes, I wanted to note here that mitigation measures for containing the spread of Covid-19 is extremely important, especially because the Delta variant is more contagious and infection by the variant is known to cause breakthrough cases for even vaccinated individuals. Even if a vaccinated person is at less risk of serious illness, hospitalization, or death, they may spread the virus to unvaccinated individuals on and off campus, including children under the age of 12 who cannot at the moment get vaccinated. As covid-19 is airborne, you must be especially cognizant of closed spaces with little social distancing. Further, I don't know whether your particular classroom has an upgraded filter, or what the ventilation rate is. It's therefore all the more important that

- Students wear a mask in class for the entire duration of the class, as mandated by Seton Hall. No mask, no class.
- Maintain social distancing to the extent possible, and
- Not come to class if you are ill.

COURSE DESCRIPTION

Who won from a US-China trade war? Will Brexit bring prosperity to the UK? What role does international trade and investment play in a Covid-19 vaccine? These current issues in international economics directly impact international relations. Economists use frameworks to analyze the underlying processes driving social and economic decisions, such as the decision for a person to migrate or for a firm to offshore. Once validated with empirical evidence, we can carefully apply the frameworks to ongoing situations to predict the impact of different policy options.

Throughout the course, we will use mainly current international issues to learn some key economic principles and apply them to the problem at hand. We will also draw from the research and policy communities to gather empirical evidence to help us decide the answer to questions such as those above. Topics covered in the course include the impact of trade patterns on jobs and wages, global supply chains and their implication for the types of trade agreements and trade policies we see today, why firms offshore (foreign direct investment), immigration and its impact on host and sending countries, whether current trade agreements address labour and environmental standards, and more. In DIPL 4555, we will view these issues through economics lens to identify the mechanisms at work and to use this knowledge to evaluate and recommend policies.

Prerequisites: ECON 1402. The course build on the microeconomic tools you learnt in ECON 1402.

COURSE OBJECTIVES

The course cultivates the use of analytical and critical-thinking tools to study the economic underpinnings of international relations. It is geared towards upper level undergraduates who have completed ECON 1402 Principles of Microeconomics. These tools will help you in your everyday capacity as a citizen, and in your professional endeavours. You will apply these tools through the in-class discussions, debates, and written analyses. Quizzes and exams are designed to test your understanding of the frameworks through problem-solving and application to scenarios not necessarily discussed in class.

By the end of the course, student should be able to:

1. Have a good grasp of the analytical tools to critically read, analyze, and discuss economic underpinnings of events in the global economy. This includes critically evaluating news media stories on relevant issues and being able to distil economically sound arguments from flawed reasoning and alternative facts, distinguish between real and alt-experts.
2. Understand the usefulness of frameworks and assumptions in economic analyses; be able to discuss the practical relevance of models, and evaluate which models and assumptions are applicable to a given real world phenomenon.
3. Incorporate data synthetically with other evidence and frameworks in supporting or refuting arguments.
4. Use all three objectives above to deliver policy recommendations based on critical analysis and evidence.

Numeracy Proficiency

This course, and economic analyses in general, has a required numeracy proficiency component. As such, through the semester, you are expected to demonstrate proficiency with numbers and measures, confidence and competence in numerical calculations and graphical interpretations, and the ability to evaluate and synthesize quantitative information accurately. Fostering critical thinking and numeracy skills, throughout the semester you will require you engage in guided discussions in the classroom and will be asked to back up your arguments with frameworks used in class and evidence presented in readings. Students will be evaluated on their critical thinking and numerical (quantitative) skills, and their ability to synthesize appropriate arguments and evidence to reach a conclusion or policy recommendation.

REQUIRED MATERIAL

There is one required textbook and recommended textbook for the course:

Required: Douglas Irwin. *Free Trade Under Fire, 5th Edition*. Princeton University Press, 2015. ([url](#))

Recommended: James Gerber. *International Economics, 6th Edition*. Pearson, 2014. ([url](#))

Other required reading and audio material are listed in the Course Schedule section, along with links to access the material. Additional material will be handed out in class, posted on Blackboard, or emailed.

Note: If you buy a different edition than those indicated, you are responsible for differences in editions as far as reading and homework material is concerned.

COURSE COMMUNICATION AND INFORMATION DISSEMINATION

All course material will be handed out in class, emailed or posted on the course site on Blackboard, located at <http://myweb.shu.edu/> or accessible through PirateNet. I will send emails and course announcement from the course website on Blackboard, so you should regularly (every 36 hours) check the email address you listed in the SHU directory.

To confirm that you are receiving emails through Blackboard, log into the course site and send an email to yourself. The [Technology Service Desk](#) (servicedesk@shu.edu, (973) 275-2222 or x2222) can assist you with any questions.

When emailing me, type **DIPL 4555** in the subject, and follow this with a subject relevant to your email. For instance, you may write “DIPL 4555 – Exam 1” as the subject of your email. An email with the appropriate subject automatically gets forwarded to my **DIPL 4555** folder, and minimizes the probability of getting overlooked in a busy inbox. I will do my best to respond to your email within 24 hours during weekdays and within 48 hours during weekends.

GRADING DISTRIBUTION AND POLICIES

The grade for this course has four main components:

- In-class exercises 10%
- Quizzes (Best 5 out of ...?) 15%
- Policy debate analyses 25%
 - Discussion lead (10%)
 - Written analysis (15%)
- Two 75 minute exams 50%
 - Higher score exam (30%)
 - Lower score exam (20%)

COURSE REQUIREMENTS AND EVALUATION CRITERIA

Class participation and preparation – not graded but expected

Class participation includes but is not limited to asking relevant questions, answering questions *meaningfully*, completing tasks handed out in class, completing the homework tasks for the following class, demonstrating thoughtful responses to assigned readings, and referring *meaningfully* to real world examples relevant to discussions. If you participate regularly in class, I will learn your names and in the case that your grade is just short of the next grade up, I will round it up.

Note that the **quality** of your discussions is important. Your contributions should be well articulated (concise, clear, civil), logically consistent, use relevant evidence, connect to the course material and stay on point. I will particularly reward original and creative comments, arguments or observations.

Preparation involves **completing and processing the assigned readings** *before* coming to class or office hours. Note that there is a substantial reading load, designed to provide you with multiple perspectives and an array of evidence. To do well in this course, you must engage in *active* reading during which you take good notes, reflect on the evidence presented, and draw out the key arguments made by the authors. I will treat assigned readings as background, and build on them in class to give a more in-depth treatment of the topics at hand. As such, you will **demonstrate preparation** for class through the quality of your participation and contribution to discussions in class.

In-class exercises

From time to time I will have you engage in work to be completed individually or in groups in class. This may be short written exercises, polls, or group discussions. I will mark these as check-, check, or check+. If you miss class, you cannot make up for in-class exercises. However, I will automatically drop the two lowest scores.

Quizzes

Short reading and analytical problem-solving *quizzes* will be administered online through Blackboard, and I will let you know at least 3 days in advance. They are open book and notes but you will have 20 minutes to answer once you open the quiz. I will count the best five out of 7 or more quizzes.

Debates and written analysis

Each week we will discuss the economic underpinnings of events in international affairs. Where noted in the schedule, this will be in the form of policy debates that the class will discuss together and in small breakout groups of 5. I will pre-assign you to breakout groups and you will stay in this group the entire semester. Each time we have a policy debate, I will assign each group a set of questions to work out in separate breakout sessions during class. When we regroup, the assigned discussion leader for that day for each group will then report back to the class the answers the group came up with.

- Each student will be a discussion leader in **ONE policy debate**, which counts for 10% of the total grade.
- Each student will also submit via Blackboard **ONE written analysis** (worth 15%) of a listed debate or case that already took place in the half of the semester s/h/ze did not lead a discussion. The **due dates** are
 - **Saturday, October 2 at 8:00 pm** (before Exam 1) and
 - **Saturday, December 4 at 8:00 pm** (after Exam 1).

Citation Format: As per the School of Diplomacy policy, all written work in all your Diplomacy courses must include proper citations and references using one of the Chicago Manual of Style citation formats: Author-Date or Notes and Bibliography. The guidelines for these formats are also available on the course Blackboard page.

Exams

There are two in class exams on **Wednesday, October 13** and on **Wednesday, December 15 for Section AA (9:30am)** and on **Tuesday, December 21 for Section AB (11am)**. The exams are non-cumulative, but keep in mind that the concepts covered in class build incrementally on previous material. Exams will be a combination of true/false, multiple choice, and short analytical questions requiring use of graphs or numerical problem-solving. You are responsible in the exams for all material covered in class, in assignments, and in assigned readings – i.e., everything unless explicitly told otherwise in class.

The lower scoring exam will carry a weight of 20%, and the higher scoring exam will carry a weight of 30%. A student unable to take an in-class exam is required to provide proper documentation to the instructor **prior** to the exam. This is the **only** scenario where a missed exam will be excused, and I will review further steps to be taken. If your absence is excused, I may choose to give you a written make-up exam or an oral exam via Zoom.

COURSE POLICIES

Attendance in all class sessions is required and I will record attendance. Note that attendance will not be rewarded with a score towards your final grade. Do not confuse the attendance requirement with class participation requirements. Note that absences can negatively impact your overall grade. Repeated instances of lateness can be treated as absences at the discretion of the instructor. Repeated instances of absences may result in a failing grade.

Late or incomplete work. If you anticipate not being able to complete an assignment (quiz or analysis) on time you should let me know in advance and I can give you an extension. Absent prior communication, late submissions will be penalized 25% of your score for every 24-hour period that the assignment is late, except in cases of medical/family emergency or Covid-19 issues.

Grade appeals will be considered only in the event you discover a mistake in grading. You must wait 48 hours before appealing. Appeals must be made in writing, and within two weeks of my handing back the graded assignment. Note that re-grades will not be limited to the disputed part of the exam or assignment.

Covid-19 ground rules. BUT, as I mentioned in my welcome email to the class, we are going through a pandemic and I understand there are many sources of worry and uncertainty. So, if you tell me **in advance** that you need more time to complete an assignment, need extra help, or you have to miss class, I will work with you. You don't have to tell me why you need an extension, and I am not going to ask for personal information. I will also conduct a check-in survey every two weeks to make sure you are keeping up with work and are not struggling. But don't wait for the next check-in if you need help sooner. I can also point you to different resources on campus if you need help outside of academics.

SCHOOL OF DIPLOMACY POLICIES

Disability Services Statement. It is the policy and practice of Seton Hall University to promote inclusive learning environments. If you have a documented disability you may be eligible for reasonable accommodations in compliance with University policy, the Americans with Disabilities Act, Section 504 of the Rehabilitation Act, and/or the New Jersey Law against Discrimination. Please note, students are not permitted to negotiate accommodations directly with professors. To request accommodations or assistance, please self-identify with the Office for Disability Support Services (DSS), Duffy Hall, Room 67 at the beginning of the semester. For more information or to register for services, contact DSS at (973) 313-6003 or by e-mail at DSS@shu.edu.

Academic Integrity & Dishonesty. Plagiarism and other forms of academic dishonesty will be reported to the administration, and may result in a lowered or failing grade for the course and up to possible dismissal from the School of Diplomacy. See University and School standards for academic conduct here: <https://www.shu.edu/student-life/upload/Student-Code-of-Conduct.pdf> and <http://www.shu.edu/academics/diplomacy/academic-conduct.cfm>

Incompletes. Incompletes will be given only in exceptional cases for emergencies. Students wishing to request a grade of Incomplete must provide documentation to support the request accompanied by a Course Adjustment Form (available from the Diplomacy Main Office) to the professor *before* the date of the final examination. If the incomplete request is approved, the professor reserves the right to specify the new submission date for all missing coursework. Students who fail to submit the missing course work within this time period will receive a failing grade for all missing coursework and a final grade based on all coursework assigned. Any Incomplete not resolved within one calendar year of receiving the Incomplete or by the time of graduation (whichever comes first) automatically becomes an “FI” (which is equivalent to an F). It is the responsibility of the student to make sure they have completed all course requirements within the timeframe allotted. Please be aware that Incompletes on your transcript will impact financial aid and academic standing.

CAMPUS RESOURCES

CAPS As part of our commitment to the health and well-being of all students, Seton Hall University’s Counseling and Psychological Services (CAPS) offers initial assessments, counseling, crisis intervention, consultation, and referral services to the SHU community. The CAPS office is located on the second floor of Mooney Hall, room 27. Appointments can be made in-person or by calling 973-761-9500 during regular business hours, Monday-Friday, 8:45 a.m. - 4:45 p.m. In case of a psychological emergency, call CAPS (973-761-9500) at any time to speak to a crisis counselor.
