Course Description

"The present global health crisis is not primarily one of disease, but of governance..." Ilona Kickbusch

Public health challenges – pandemic flu, HIV & AIDS, COVID-19, obesity, neglected diseases, tobacco use, environmental degradation, and underperforming health systems – increasingly shape and are shaped by the political, economic, and social aspects of globalization. Meanwhile, international rules that fall outside the traditional health sphere – such as those governing intellectual property, agriculture, human migration, and greenhouse gas emissions – can have profound impacts on human health. While strong national health systems are critical for meeting population needs, the effects of and capacities to respond to a particular health threat often lie outside the control of any one nation state and outside the health sector. Translating lofty development goals into significant improvement in health outcomes depends on effective global health governance, which could be defined as the “use of formal and informal institutions, rules, and processes by states, intergovernmental organizations, and nonstate actors to deal with challenges to health that require crossborder collective action.”

This course will examine the concepts, approaches and institutions of global health governance as well as the governance challenges of global health. It will address the following questions: What is the current institutional architecture of actors engaged in global health? How suitable are existing institutions for responding to the 21st century global health challenges? Which tools and mechanisms have succeeded or failed to govern trans-border health threats, and why? To what extent are the international relations theories relevant in accounting for the dynamics in global health governance? Where are the major governance gaps?

Course Learning Objectives (CLOs)

At the end of this course, students will be able to be equipped with the knowledge and skills needed to:

CLO 1: Identify major global health challenges

CLO 2: Diagnose main governance gaps in the current system

CLO 3: Critically examine a wide range of actors, approaches, institutions for shaping global health governance processes

CLO 4: Examine, assess and design interventions for improved governance

CLO 5: Develop the skills and capabilities to analyze complex situations and synthesize information, and to communicate effectively using oral and written forms

Course Materials

Other Course Materials (including journal articles and readings) will be listed in “Instructional Materials” folder within the modules.

Prerequisite Information

This course has no specific academic prerequisites.

Technology prerequisites:

- Using main features of Blackboard
- Posting in the Blackboard discussion forums
- Checking SHU email (sending/receiving)
- Word processing (creating and saving documents in .doc or .docx format)
- File management
- Conducting research using the internet or SHU Library databases

Please note that **this is a fully online course**.

Expectations

Students are expected to:

- Using main features of Blackboard
- Posting in the Blackboard discussion forums
- Checking SHU email (sending/receiving)
- Word processing (creating and saving documents in .doc or .docx format)
- File management
- Conducting research using the internet or SHU Library databases.

The instructor will:

- Respond to discussion boards postings when appropriate
- Respond to emails/messages within 24-48 hours
- Grade assignments within 7-14 days of the assignment deadline

Discussion Forums

Expectations and requirements

- The approximate length of original posting is 100-150 words (10-15 lines. **No more than 150 words**).
- Each student is expected to post or respond to a forum **at least twice** (one original posting + one reply).
- Available dates: check each module under "Assignments".
- Criteria for evaluating the originality and quality of students' comments and grade credit expected (see Discussion Board Rubric in "Rubrics" folder in the course).
- The instructor will read the posts, interject when needed, but may not respond to every post.

Assignments/Activities

Module 1

- Introduce Yourself Discussion Board
 - Due 1/21/2022
 - Post to Blackboard Discussion Board Forum
 - Use DB Rubric
- Discussion Board 1: After the end of the Cold War, democracy became the fundamental principles of global governance. Governance policies have been both legitimized and contested in terms of democratic principles of participation, equality, and accountability. To what extent has the Covid-19 pandemic challenged democracy as a fundamental principle of global health governance?
 - Initial post due 1/25; Response to peers due 1/28
 - Post to Blackboard Discussion Board Forum
 - Use DB Rubric

Module 2

- Discussion Board 2: During the COVID pandemic, the WHO, CEPI and Gavi convened the COVAX vaccines pillar to speed up the search for an effective vaccine for all countries and ensure global equitable access to COVID-19 vaccines. Does the COVAX vaccine pillar illustrate the application of a biomedical model in global health governance?
 - Initial post due 2/8, Response to peers due 2/11
 - Post to Blackboard Discussion Board Forum
 - Use DB Rubric

Module 3

- Discussion Board 3: Has the WHO done a good job in responding to the Covid-19 pandemic? In light of its role in the pandemic, what are the most crucial reforms do you think the organization should undertake?
 - Initial post due 2/22, Response to peers due 2/25
 - Post to Blackboard Discussion Board Forum
 - Use DB Rubric

Module 4

- Discussion Board 4: Should IHR (2005) be revised given its failure to stop Covid-19 from evolving into a pandemic, or should the negotiation of a pandemic treaty (as suggested by the [report](#) issued by the Independent Panel on Pandemic Preparedness and Response in May 2021) be given a higher priority?
 - Initial post due 3/15; Response to peers due 3/18
 - Post to Blackboard Discussion Board Forum
 - Use DB Rubric

Module 5

- Work on policy memo

Module 6

- Work on policy memo

Module 7

- Policy Memorandum Assignment
 - Due 4/8
 - Submit within Blackboard as a Word document
 - Use Policy Memorandum Assignment Rubric

Module 8

- No assignments

Module 9

- Oral Presentation Assignment
 - Due 4/27
 - Submit with Blackboard as video file
 - Use Oral Presentation Assignment Rubric

Module 10

- Discussion Board 5: Can/Should the international society hold China accountable for the Covid pandemic?
 - Initial post due 5/6; Response to peers due 5/10
 - Post to Blackboard Discussion Board Forum
 - Use DB Rubric

- Take-home Final
 - Distributed 5/10; Due 5/17
 - Submit within Blackboard as Word document

Grading Policies

Discussion Forums: 25% (5@5% each)

Policy Memorandum: 20%

One Oral Presentation based on the policy memo: 20%

Take-home Final Exam: 35%

Late Assignments Policy

All assignments and exams should/must be completed by the scheduled time. If for some substantial reason you are unable to turn in your assignment/exam in time you must/should contact the instructor *directly* prior to the due date to avoid the penalty for late work.

Policy on Incompletes

Incompletes will be given only in exceptional cases for emergencies. Students wishing to request a grade of Incomplete must provide documentation to support the request accompanied by a Course Adjustment Form (available from the Diplomacy Main Office) to the professor *before* the date of the final examination. If the incomplete request is approved, the professor reserves the right to specify the new submission date for all missing coursework. Students who fail to submit the missing course work within this time period will receive a failing grade for all missing coursework and a final grade based on all coursework assigned. Any Incomplete not resolved within one calendar year of receiving the Incomplete or by the time of graduation (whichever comes first) automatically becomes an "FI" (which is equivalent to an F). It is the responsibility of the student to make sure they have completed all course requirements within the timeframe allotted. Please be aware that Incompletes on your transcript will impact financial aid and academic standing.

COVID Ground Rules

We're in a global pandemic. These are scary times. If you tell me you are struggling, I am not going to judge you or think less of you. You **do not owe me** personal information about your health (mental or physical) or living circumstances (and, for your sake as well as mine, I would prefer if you not get into specifics). If you need more time on an assignment, **JUST ASK**. There are LOTS of campus resources (both virtual and in-person) available; use them. So, let's agree on some ground rules: I will try my best and you will try your best. I will cut you some slack, provided you communicate with me about your constraints. And I expect you to cut me some slack, too.

Citation Formats

Papers should utilize one of the Chicago Manual of Style citation formats: Author-Date or Notes and Bibliography. The guidelines for these formats are on the course Blackboard page.

Extra credit Policy

Students who submit all of the assignments on time will receive one full extra credit point to their total final grade.
