SETON HALL COLLEGE.

THIS Institution was founded in 1856, at Madison, N. J., by the Rt. Rev. J. ROOSEVELT BAYLEY, the first Bishop of Newark. During the summer vacation of 1860 it was removed to its present location at South Orange. The Legislature of the State, during its session of 1861, passed an Act of Incorporation granting it all the rights and privileges enjoyed by other Colleges in the State.

It is situated near the village of South Orange, distant, by railroad, sixteen and a half miles from New York, and six and a half from Newark.

The College buildings are of great architectural beauty, large and commodious, thoroughly ventilated, well heated by steam, and lighted by gas. They are on high ground, overlooking a beautiful country. The Orange Mountains have long been recommended by physicians as a most favorable residence for their patients, and the advantages of the sur-

rounding country have been fully appreciated; hence the villas and mansions on every eligible site for miles around.

The College is conducted by Secular Priests, who are assisted by experienced Lay Professors.

The domestic arrangements are under the care of SISTERS OF CHARITY. The greatest attention is paid at all times to the neatness and cleanliness of every part of the establishment. In sickness, the students receive the most careful nursing.

The object of the Institution is to impart a good education, in the highest sense of the word—to train the moral, intellectual, and physical being. The health, manners, and morals of the pupils are objects of constant attention. The system of government is mild and paternal, yet firm in enforcing the observance of established discipline.

The better to carry out the design of the Institution, to maintain strict discipline, with kind and gentle treatment, and to devote constant and special attention to each individual student, but a limited number is received. For this reason, it is expedient that parents, who wish to secure places for their sons in SETON HALL, should make early application.

All the pupils are thoroughly instructed in the Doctrines of the Catholic Church, and trained in its practices.

The Academic year, which consists of two sessions, of five months each, commences on the first Wednesday of September, and ends on the last Wednesday of June. At Christmas there is a vacation of ten days; and in the spring, absence for a day

or two is allowed, for the summer equipment of the students. At no other time will they be permitted to leave the College, except for reasons of great importance.

The regular visiting-day is Thursday.

Weekly reports of all the classes are read before the Professors, Tutors, and Students. Monthly reports are sent to the parents or guardians.

SPECIAL LECTURES.

DURING the past year, the Rt. Rev. Mgr. Robert Seton, D.D., delivered a Course of Lectures on Sacred Archæology. These he kindly proposes to continue during the next academic year.

EXAMINATIONS.

THE STUDENTS of each class are thoroughly examined in all their studies. These examinations may be either written, or oral, or both, as the President may direct. In the most important branches of study, both methods are employed.

No Student failing in the annual examinations will be recommended for promotion to a higher class.

Promotion during the year to a higher class is equivalent to the honors of the class which the Student leaves.

DEGREES.

CANDIDATES for the degree of Bachelor of Arts are required to follow the regular studies of the course, and pass a satisfactory examination in them.

Graduates of the College may, on application, receive the degree of Master of Arts, two years after they have finished the course of studies.

Students are required to be present on the first day of each Term.

Failure in punctual attendance, unless legitimately excused, subjects Students to the loss of good marks, and therefore adds to the difficulty of obtaining honors on Commencement Day.

Parents have the right to withdraw their children at any time; they have not the right to interfere with the established discipline of the College.

EXPENSES.

Board and tuition, use of bed and bedding, \$400 per annum, payable half-yearly, in advance.

Washing and mending of clothes and linen, \$20; Physician's fees, medicines, etc., \$10: Graduation Fee, \$5.

Music, \$60, and Drawing, \$50 per annum, for those who wish to learn them. For use of Piano, \$10 per annum. The German, Italian, and Spanish Languages, each \$25 per annum.

Each Student, on entering, should be supplied with sufficient clothing for the session. He should also have two silver spoons, two forks, and a napkin ring, all marked with his name.

No article of clothing, &c., will be furnished to Students without special instructions from parents or guardians, and, in such cases, a sum sufficient to defray probable expenses should be deposited with the Treasurer, in advance.

With regard to pocket-money, it is desirable that parents should allow their children but a moderate sum, and that this should be placed in the hands of the Treasurer, to be given as prudence may suggest.

Bills of expenditure are sent at the close of each session, and a remittance to cover their amount should be made within ten days after receipt. Parents or guardians residing out of the country, or at a great distance, must appoint a representative at some convenient place, who will be responsible for the regular payment of all expenses, and bound to receive the Student, should it become necessary to dismiss him.

Should a Student leave the College before the expiration of a session, no deduction is made for the remainder of that session, except in case of dismissal or prolonged sickness. Sixty dollars extra will be charged for Students who remain in the College during the vacation.

FUNDAMENTAL RULES OF DISCIPLINE.

The rules of the College require of all Students a manly bearing and kind, courteous deportment towards each other at all times; application to study during the hours of study, and the thorough preparation and recitation of the lessons assigned.

No Student ever leaves the College grounds without permission.

Leaving the College grounds after nightfall subjects the student to expulsion.

The use of Tobacco is forbidden.

No books, other than text-books and works of reference recommended by the Professors, can be held by the Students, unless by permission of the President.

Students are not allowed to receive newspapers, except for their Reading-room, which is under the direction of the President.

Correspondence is permitted only with parents, guardians, and relatives.

Students insubordinate, or of low and vicious habits, will not be retained in the College.

Students coming from other Colleges must bring satisfactory testimonials of character.

FINALE.

SETON HALL,

MARCH 27TH, 1875.

DEAR SIR:

I am happy to report that the enteric fever, which caused us to suspend studies, has almost entirely disappeared. We have also discovered and removed the cause of the disease.

A careful investigation led our Medical Adviser to trace the sickness to the use of water from a pump near the College. Although, at the time, we knew of nothing in the neighborhood of this pump to justify suspicion, yet subsequent consultation and inquiry revealed the fact that there was an old drain in the vicinity, the soakage from which must have gradually reached the source of the water. This drain was connected with the old Marble building, destroyed by fire in 1866, and the drain itself has not been used since 1860. Hence, its existence was quite unknown to the actual officers of the College. To prevent the recurrence of similar danger in future, the pump has been removed; and to make assurance doubly sure, we have entirely changed the supply of water, and caused a new well to be dug on high ground, in a distant part of the property, far away from all pipes, gas, waste water and drainage, or other sources of possible infection, so that we feel as secure in this respect as human precaution can make us.

During the sickness through which we have just passed, we had the misfortune to lose one of our students, one of the best and most promising of the entire number. The other cases, thank God, have all either perfectly recovered or are convalescent. As a measure of prudence, however, our Physician counsels that studies should not be resumed until the end of next week. We will accordingly again communicate with the Parents, or Guardians, of our pupils before inviting them to return.

The object of the present note, besides imparting general information as to the sanitary condition of the College, is to state that there will be no May recess this year, and accordingly to request that our students return fully provided with everything they may need in the way of apparel, &c., until the close of the session, namely, the 30th of June.

The College Faculty take this opportunity to thank Parents and Guardians for the very kind expressions of sympathy and confidence which have been received during the past two weeks, and to say that they will spare no effort in performing to the best of their ability the very arduous but most grateful duties committed to their charge.

Very respectfully,

M. A. CORRIGAN, PREST.

NEWARK, N. J., April 10th, 1875.

To the President of Seton Hall College.

At your request I have examined into the Sanitary arrangements of the College, the position of the buildings, the supply of water, and the sewerage.

The College buildings are situated on an elevated knoll, in one of the healthiest locations in Essex County.

The present supply of Water is derived from a source far removed from any possible cause of contagion.

The Sewerage system is safe and efficient, and as complete as the character of the ground will permit.

From these facts, I conclude that the Sanitary condition of the College is as perfect as can be made, and equal to any similar Institution in the country.

ISAAC A. NICHOLS, M. D.,

Health Physician, Newark, N. J.

This opinion of Dr. Nichols has my full endorsement.

WM. O'GORMAN, M. D.,

Attending Physician to Seton Hall College.

M.B.F.

SETON HALL,

April 12, 1875.

DEAR SIR :

Acting under medical advice, and not wishing to run any risk, I purposely omitted calling back our students at the time indicated in my last Circular. I have now great pleasure in announcing that studies will be resumed on Monday, the 19th inst. We will expect our pupils on Saturday in order to assign class-duties, and make necessary preparations for resuming work. The regular recitations will begin promptly on Monday morning.

I beg to repeat that the late fever undoubtedly originated in the use of vitiated water. As soon as this fact was established, the infected well was at once abandoned, and has since been filled up. Five weeks having now elapsed since the use of this water was discontinued, any poison that it may have engendered would certainly have shown itself before this, and as there has been no new case of fever at the College for over three weeks, although some forty or fifty persons have been living there all the time, we have every reason to believe that the poison has spent itself, and that we are at length rid of the disease. In this opinion our attending Physician and other medical authorities entirely concur.

The College Infirmary has had no occupants for the past few days, the former patients having either entirely recovered, or

M. V. G.

recovered so far as to desire to hasten their complete restoration by change of air.

As was stated previously, a new water supply has been provided, five hundred and sixty feet distant from the College, and absolutely removed from all causes of infection. This new well, twenty-four feet in circumference, has fortunately proved eminently successful. The walls of the well, two feet thick, are laid in solid cement, to exclude surface water, and the well contains an apparently inexhaustible supply of water, fresh and cool, thirteen feet deep.

In conclusion, I beg to call your attention to the enclosed Certificate of Dr. Nichols, the distinguished Health Officer of the City of Newark, as also to the testimony of Dr. O'Gorman.

With profound thankfulness to Almighty God that we have been permitted to pass through this severe visitation, comparatively unscathed, with only one fatal result, and hoping to have the pleasure of seeing our students back in a few days,

I remain, my dear sir,

Very truly Yours,

M. A. CORRIGAN, PRES'T.
